## NO. 1 POLICE LAUNCH STRIKES SUBMERGED ROCK IN MIRS BAY

### FRANCE SUPPORTS BRITAIN NEW SANCTIONS POLICY APPROVED

FOREIGN AFFAIRS DEBATE TO BE  
HELD NEXT WEDNESDAY

"CHINA MAIL" SPECIAL

Paris, To-day.  
The French Government will support the British Government in demanding that sanctions be raised after the forthcoming League of Nations session in Geneva, according to a communique issued after the conclusion of the Cabinet Council held in the Palais des Champs d'Elysees yesterday, with President Lebrun in the chair. The communique declares:

"The Foreign Minister, M. Delbos, reported regarding the foreign political situation, particularly concerning the problems which are on the agenda of the forthcoming League session. Local to the principle of collective action, the French Government will support all decisions taken by the League of Nations. In view of its information regarding the present sanctions situation, the French Government believes that consideration of the actual facts must lead to the sanctions being raised. The French Government has, therefore, approved of the instructions to this effect, which will be sent to the French diplomatic representatives abroad to-day. The French Government examined the means that appear suitable for strengthening the system of collective security and decided actively to pursue their realisation."

### WINGS OVER AMERICA

Huge Increase in Air Force  
Authorized

Washington, To-day.—Congress has passed and sent to the White House the McSwain Bill, authorizing an increase of 2,320 planes in the Army Air Force. The present authorized strength comprises 1,800 planes.—Reuter.

### SEA ADVENTURE ENDED

Girl Pat Towed Into  
Georgetown

CREW REMOVED TO POLICE  
STATION

Georgetown, To-day.  
The Girl Pat has tied up at the Customs wharf, and the crew has been removed to the police station.—Reuter.  
An earlier message stated that the Girl Pat, the Grimsby trawler, whose master took her off for an unauthorized treasure hunt, was being towed into port by the Government motor-vessel Pomeo, after a thrilling chase in which the fugitive displayed amazing seamanship.  
(Continued on Page 12)

### OLYMPIC GAMES

France Not Competing  
Officially

Paris, To-day.  
The Government has decided that France will not officially participate in the Olympic Games, but a bill will be tabled in Parliament to open credits to enable representatives of the French Sports Federation to participate.—Reuter's Bulletin Service.

### GERMAN REPORT

Paris: France's participation in the Berlin Olympics, which was for some time doubtful in view of the shortage of funds of the French Sports Association, is now secured, as the Government is prepared to foot the bill.—Trans-Ocean Service.

The President of the Reichsbank, Dr. Schacht, above, has denied that there is any political significance about his recent visit to South-Eastern Europe, which was only concerned with economic matters.

### ALL OPEN AND ABOVE BOARD

DR. SCHACHT'S TRIP  
TO S.E. EUROPE

NO POLITICAL DESIGNS

"CHINA MAIL" SPECIAL

Budapest, To-day.  
Declaring that his trip to south-eastern Europe was "wholly free from any political aspirations," the President of the Reichsbank, Dr. Schacht, speaking here at a press reception yesterday, emphatically denied the imputations made by some of the foreign papers.

"It seems curious to me that every effort made by Germany to improve the international economic situation should be eyed with suspicion, as having some political motive," he said.  
Recalling that Germany and other countries were involved in the tangle of debts through the Treaty of Versailles, Dr. Schacht put the question whether, if every attempt of the debtor nation to improve its and thus the creditor's position was to be eyed with suspicion, the creditor nations were at last prepared to renounce their claims.  
(Continued on Page 12)

### U.S. PRESIDENCY

NEW CANDIDATE  
IN THE FIELD

Washington, To-day.  
Mr. William Lemke, member for North Dakota in the House of Representatives, has announced his candidacy for the Presidency as the candidate for the new "Union Party." It is widely predicted that Father Coughlin, the "Radio Priest," will support Mr. Lemke.—Reuter.

### FRANCE TO DEFEND HER CURRENCY

DEVALUATION FEARS  
DISPELLED

CAPITAL LEVY WOULD PROVE  
TO BE DEATHBLOW

Paris, To-day.

Devaluation was rejected by M. Vincent Auriol, Finance Minister, in a speech in the Chamber yesterday. He said that the only policy to-day was the call to the nation to save itself and its currency.

It is estimated that 26 milliards of French capital has been exported since January last year, and 36 milliards hoarded. The budget deficit for 1936 will be between six and seven milliards. Treasury commitments from June to December, 1936, are 15 milliards, against which the Government is entitled to issue 840,000,000 francs in Treasury Bills during the remainder of the year. The Bank of France has advanced the State 14 milliards.

The permanent public debt has been reduced by 44 milliards since 1932, the remarkable debt has increased by 75 milliards, the short-term debt has risen to 32½ milliards and the floating debt to 66 milliards.

M. Auriol yesterday tabled four Bills providing penalties for concealing funds abroad after a given period, the severe repression of any action prejudicial to the State, the reorganization of the Bank of France, and the simplification of the public finances. Private banks are not to be nationalised, but are subject to control to prevent "abuses."

He warned the Communists that a capital levy was dangerous and impossible; it would "kill the French Treasury." The Government would shortly issue short-term bills of small denominations, in which the man in the street could invest. In the meantime he would ask the Bank of France for a credit and the public would be asked to subscribe to baby bonds.

### OBITUARY

Mrs. D. Tolan Passes  
At War Memorial

VERY BRIEF ILLNESS

It will come a great shock to her many friends in the Colony to learn that Mrs. D. Tolan, wife of Mr. D. Tolan, of the Hong Kong Telephone Co., Ltd., passed away at the War Memorial Nursing Home at 2.45 a.m. to-day from internal complications.

The late Mrs. Tolan was only ill for five days and her demise has robbed the Colony of one of its oldest European residents.  
Mrs. Tolan leaves three daughters in the Colony, one of whom is Mrs. S. C. Clemo, while she has another married daughter at Home, Mrs. C. S. Woods. Mr. and Mrs. Tolan first came out to the Colony nearly 30 years ago.  
The funeral will take place this afternoon and will pass the Monument at 5 p.m.

### SOLAR ECLIPSE ECLIPSED

New Star Discovered  
In Germany

"CHINA MAIL" SPECIAL

Berlin, To-day.

Yesterday's total solar eclipse was self-eclipsed, as far as Berlin University Observatory was concerned, by the unexpected discovery of a new star during the observations of the scheduled astronomical phenomenon. The new star is situated 1½ degrees south of the star "Epsilon" in the constellation "Cepheus," and is of third to fourth magnitude.

This is the first time that the Berlin University Observatory has discovered a new star, and curiously enough it was reported from both stations in the observatory at Neubabelsberg and the branch at Sonneberg practically simultaneously.—Trans-Ocean Service.

It is suggested that, having effected a settlement with Kwangtung, Generalissimo Chiang Kai-shek, above, will now impose his will on Kwangsi, using force if necessary.

### I.R.A. DECLARED ILLEGAL

To-morrow's Parade  
Prohibited

FORMAL ORDER MADE

Dublin, To-day.

The Free State Government has formally declared the Irish Republican Army an illegal organisation and has prohibited the parades arranged for to-morrow.

The Government statement declares that the "methods and activities of the organisation styling itself the Irish Republican Army and the commission of crimes of violence, obviously organised, makes it necessary that it should be made clear that the continuance of this unlawful organisation will not be permitted. The Government has therefore decided to make an order formally declaring the organisation an unlawful association."

The statement adds that the Government has decided to prohibit the holding of the mobilisation arranged for to-morrow at Sallins and Bodenstown, and warns all citizens to avoid visiting these neighbourhoods to-morrow.—Reuter.

### NEW CABINET IN SWEDEN

AGRARIAN PARTY  
INCLUDED

Stockholm, To-day.

The newly-formed Cabinet consists of six members of the Agrarian Party and six Government officials and non-official political experts. The Prime Minister is also Minister of Agriculture.

The previous Cabinet resigned following defeat by Parliament on the question of old age pensions, which therefore necessitated the formation of a new Cabinet.—Reuter's Bulletin Service.

### PHILIPPINE DEFENCES

10-YEAR SCHEME WILL COST  
\$80,000,000

Manila, To-day.

A plan to make the invasion of the Philippines impossible by using speed-boats armed with torpedoes, in addition to air defences and the introduction of universal military instruction, has been submitted to the Commonwealth Assembly by Field Marshal Douglas MacArthur, former United States Chief of Staff, who was appointed Field Marshal of the Philippine Army.

The 10-year scheme costing \$80,000,000 involves an army make the conquest of the Philippines so costly in men and money as to give pause to the force and a marine division, most ruthless and powerful when completed will, ac-

### PROPELLER DAMAGED

CAUSE OF MISHAP  
UNKNOWN

Being Towed Here By  
No. 4 Launch

MOST RECENT ADDITION  
TO FLEET

"No. 1 Police Launch struck a submerged rock in Tak Mun, Mirs Bay, off Long Harbour, at 3.15 p.m. yesterday afternoon. I do not know the cause of the accident, but the propeller of the launch has been damaged and she is being towed in by No. 4 launch, and is due in the harbour some time this morning," said the Hon. Mr. T. H. King, when asked by the "China Mail" whether he could confirm the rumour that the No. 1 Launch had met with an accident in Tai-po Harbour.

The Hon. Mr. King added that, apart from the damage to the propeller, the launch sustained no other damage, and added that the vessel is the one which had only recently been put into commission. She was built locally, at Tai-koo Dockyard, and carries, in addition to other armaments, a three-pound gun.

### BIG FIGHT ON NO LIKELIHOOD OF POSTPONEMENT

New York, To-day.

A cable despatched yesterday from New York stated that the fight between Joe Louis and Max Schmeling, scheduled for last night, would definitely take place.—Reuter.

The fight was postponed from the previous night on account of rain. Both men are reported fit and each one expressed confidence of being able to win, but ringside betting showed that the Brown Bomber was a hot favourite.

### Guthrie Pilots Norton To Fine Win In Senior T.T.

The Isle-of-Man, To-day.—Perfect conditions favoured the premier motor-cycling trophy race in the world, the Senior T.T., which was run here yesterday. There were only 20 starters, which was the smallest number in many years, but again all records were shattered for the seven laps over the 264-mile course.  
James Guthrie, on a Norton, won in 3 hours, 4 mins. 43 seconds, averaging 35.80 miles per hour. Stanley Woods, on a Velo-cette, was second in 3 hours, 5 mins. 1 sec., at an average speed of 35.66 miles per hour, while the leader.—Reuter.

### NEW TRACK MARK

400 METRES IN  
46.1 SECS.

Chicago, To-day.

Archie Williams, formerly of California University, broke the world's track record for 400 Metres when he clocked 46 1/10 seconds yesterday. The previous best time was 46.2 seconds, set up by W. A. Carr, also of America, in 1932.—Reuter.

### STOP PRESS

Max Schmeling won in the 12th round on a knock-out.—Reuter.

## MAIL SCHEDULES

## AIR MAIL

Imperial Airways via Singapore  
Rangoon-Amsterdam via Singapore  
Saigon-Marseilles via Saigon

Singapore-Australia.  
Correspondence will be accepted for transmission by these services. Rates and all particulars are shown in the schedules exhibited at the Post Office. All letters etc., must be marked "By Air Mail" and be handed in at the Post Office.

The Money Order Office is open from 10 a.m. to 4 p.m. except on Saturdays when it closes at 12 noon and on Sundays and holidays when it is entirely closed.

An Air Mail Box has been erected at the General Post Office. Correspondence intended for the R.M.A. "Dorado" must be posted before 8.30 a.m. on Friday. In Kowloon such correspondence may be posted in the ordinary box at Kowloon Post Office which will be cleared at 8 a.m. on Friday. The public are particularly requested to see that their letters bear sufficient postage. Correspondence bearing insufficient postage will be forwarded by ordinary services.

## NEW POSTAL RATES

Attention is drawn to the increased postal rates effective as from 1st June 1936. Unpaid or insufficiently prepaid correspondence is only deliverable against payment of double the deficiency.

No 15 cent stamps are at present on sale and 10 cent and 5 cent stamps should be used. 20 cent and 5 cent stamps will be accepted for the 25 cent rate as soon as the present stock of 25 cent stamps is exhausted.

Thomas H. Robinson, Jr. (extreme left) is surrounded by detectives and armed G-men as he is hustled to his permanent home at the Alhambra Penitentiary barely 60 hours after being captured in Glendale, California. He pleaded guilty to kidnapping Mrs. Alice Speed Stoll of Louisville, Kentucky.

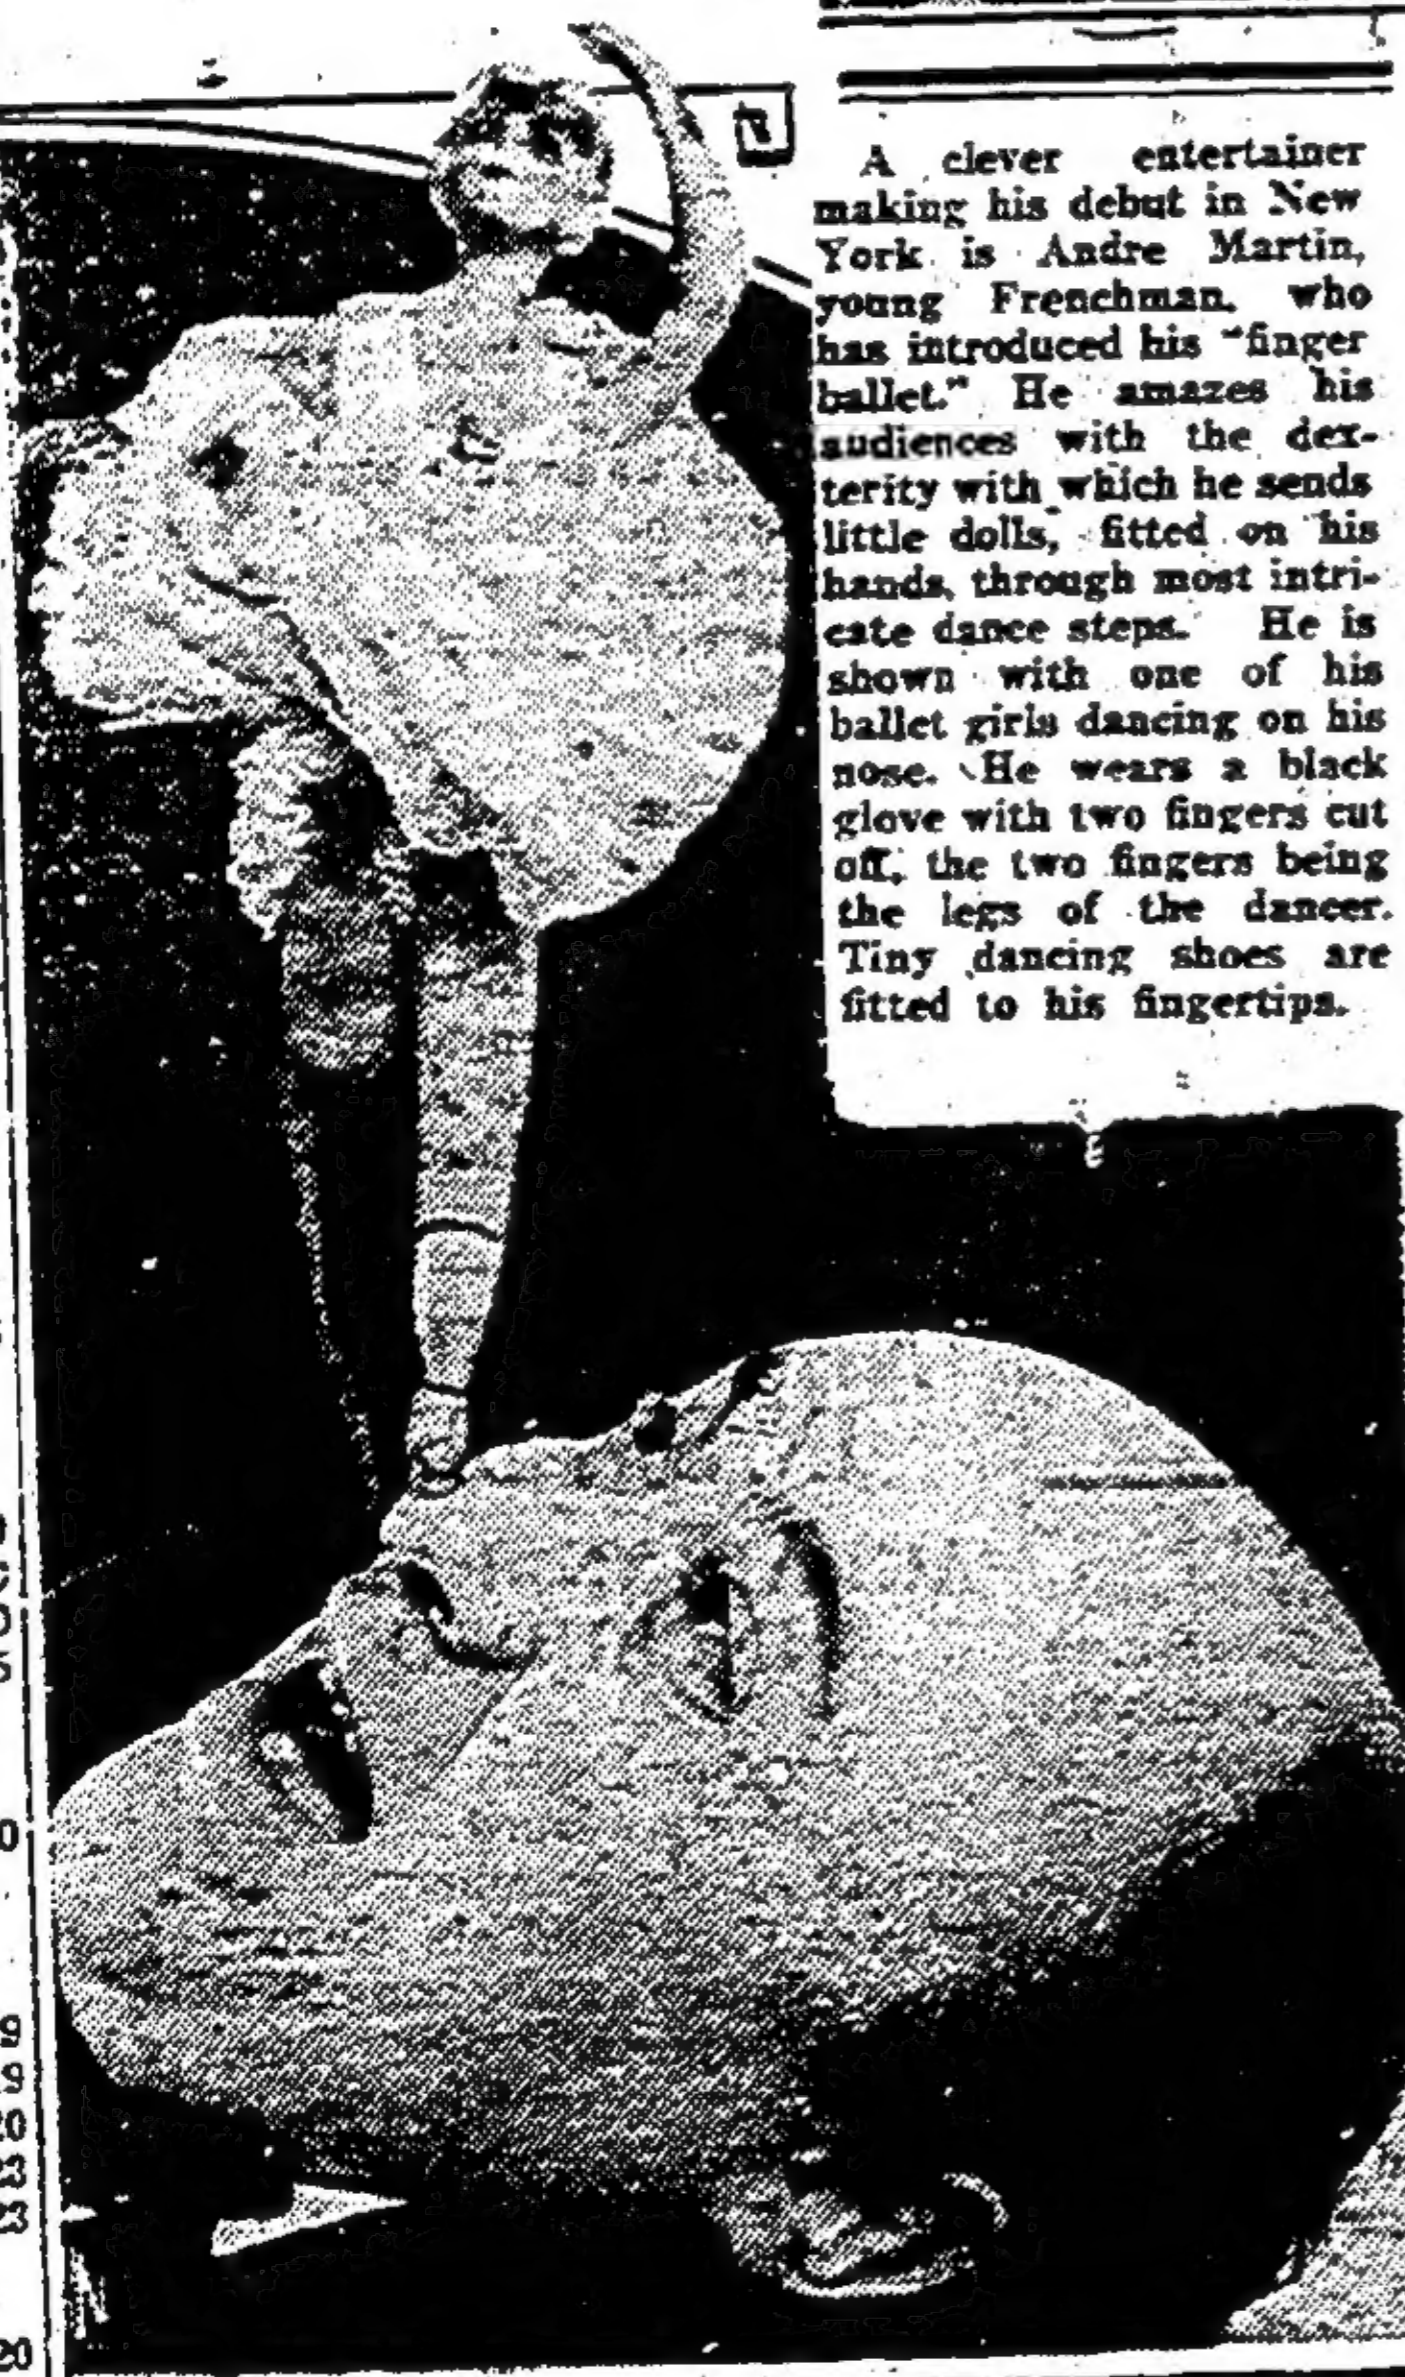

These Italian guards are shown patrolling the debris-littered streets of Addis Ababa, where the natives rioted fiercely following the flight of Emperor Haile Selassie last month. This radio-photograph clearly shows some native residents watching their conquerors.

Friends, who claim to know, say that romance is in the air for Judy Stewart (above), New York stage star, as soon as Rudy Vallee is divorced.

A clever entertainer making his debut in New York is Andre Martin, young Frenchman, who has introduced his "finger ballet." He amazes his audiences with the dexterity with which he sends little dolls, fitted on his hands, through most intricate dance steps. He is shown with one of his ballet girls dancing on his nose. He wears a black glove with two fingers cut off, the two fingers being the legs of the dancer. Tiny dancing shoes are fitted to his fingertips.

(Above) Police and firemen search the ruins of Eastwood Park, Detroit amusement resort, where three were killed and three injured last month. The victims were trapped when the blaze swept through an amusement concession known as "The Jungles," a dimly-lighted maze of corridors with walls made of light composition board, lined with artificial trees.

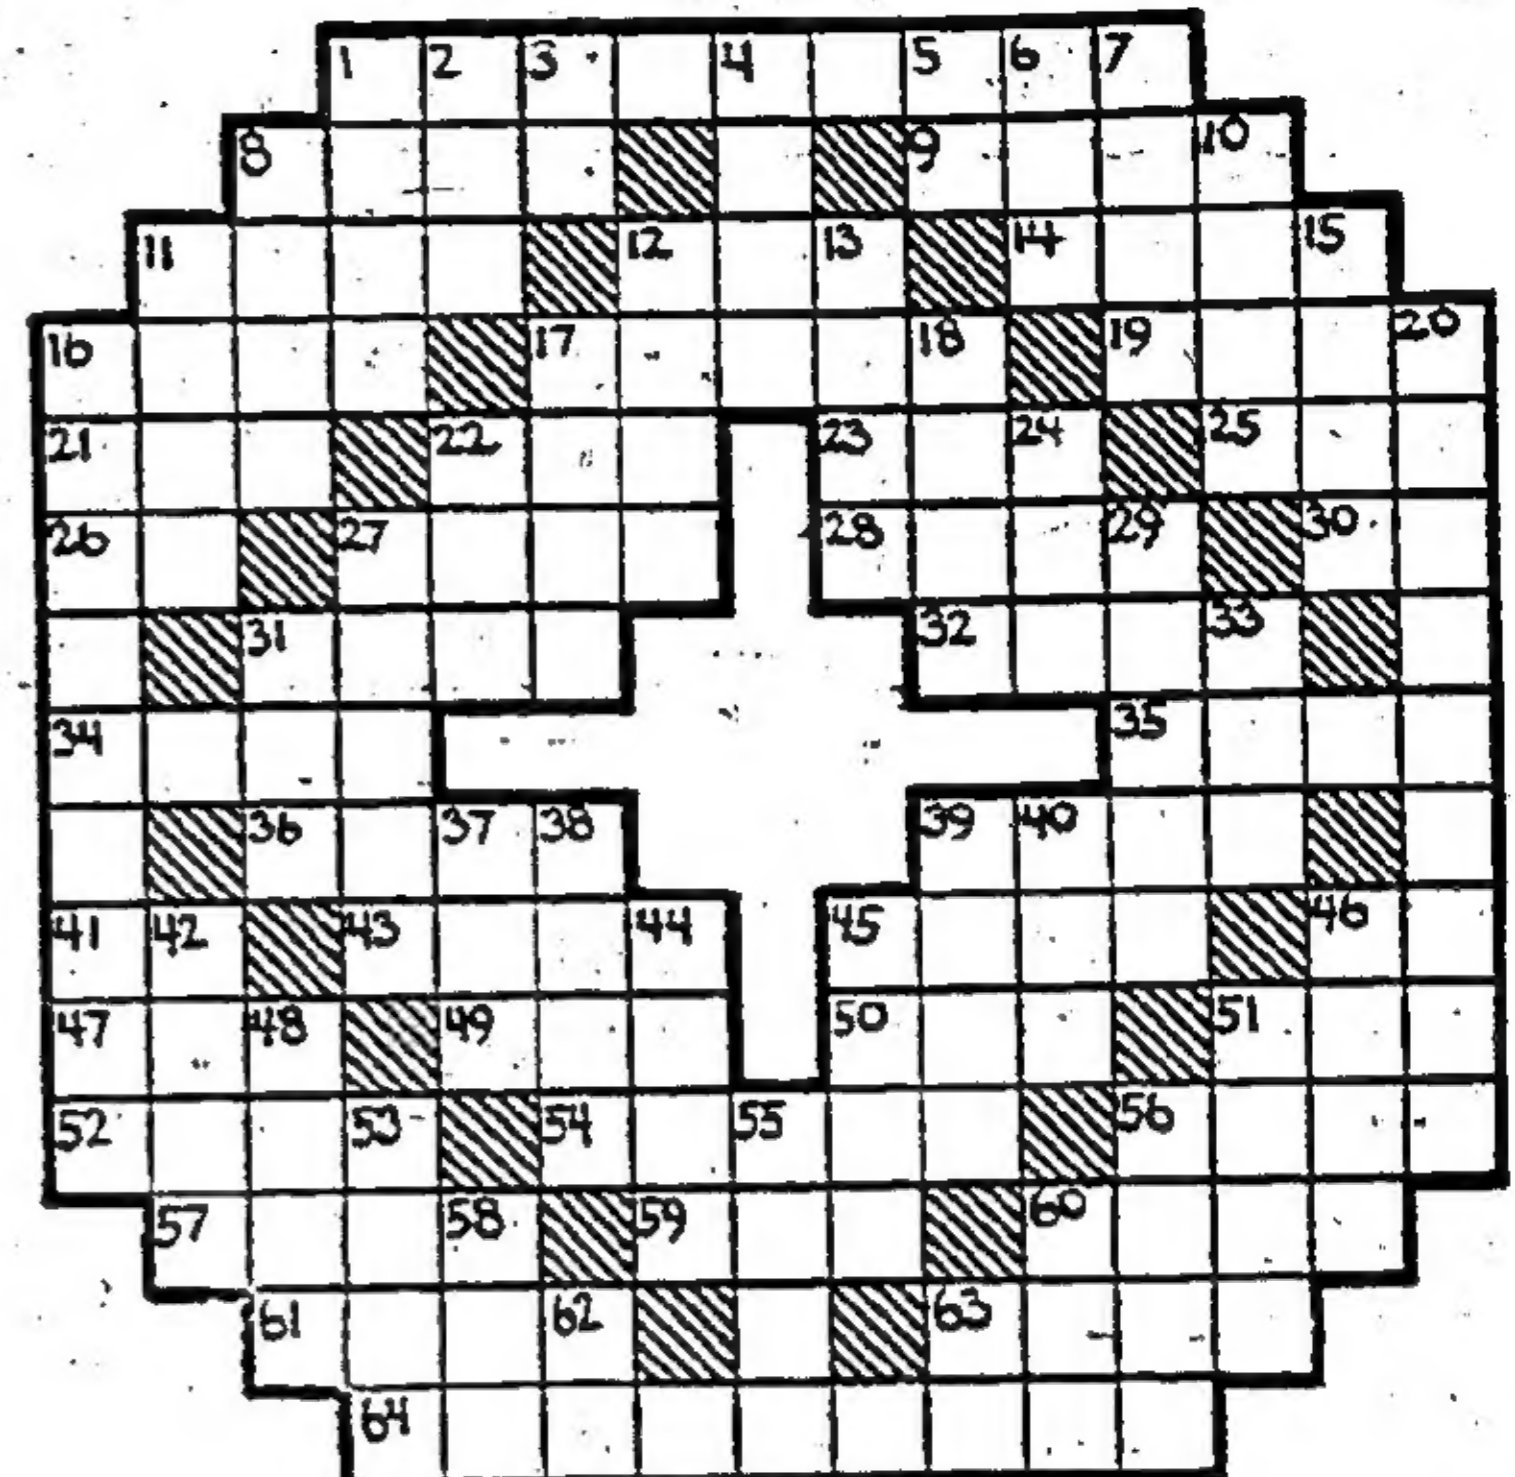

(Right) Alberta Mansfield, American dancer, was so happy at returning home on the Normandie, that she leaped on a stanchion to get a better view of the skyline.

The body of Sheriff William B. Young of Orange County is here seen being carried from the site of the cabin of William Wills, Negro, at Gordonsville, Virginia. A posse of 1,000 surrounded the cabin, riddling it with bullets, and finally setting it afire, cremating Wills and his sister, Cora. Young had sought to arrest Wills for a mental examination after the Negro had threatened a white woman with a gun.

### MASSAGE

EXPERT MASSAGE FOR SPRAINS & STIFFNESS  
MRS. Y. AMANO  
No. 26 Wyndham Street, 2nd Floor

(Continued from Next Column)  
Havilland at the head of an unusually popular cast.

The story itself is the story of most families—internal battles, but a common front against an outside attack. Mary Gordon portrays the part of an Irish mother whose three sons are Pat O'Brien, a policeman; Frank McHugh, a fireman; and James Cagney, who refuses to take a steady job, but devotes himself to managing broken-down prize-fighters.

The mother's catering to the one non-producer of her brood keeps the family in constant turmoil, but the tempest breaks in earnest when Cagney takes O'Brien's girl (Miss de Havilland) away from him.

In the cast are Allen Jenkins, Harvey Parry, J. Farrell MacDonald and Thomas Jackson, in addition to a number of noted prize-fighters and many college athletes.

### "THE LAST DAYS OF POMPEII"—ORIENTAL THEATRE

Written by James Ashmore Creelman and Neville Baker, the story is of the world when the influence of Christ's teaching was about to be felt. A man, embittered when poverty costs him the lives of his wife and child, makes money and power the aims of his career. How he rises from a blacksmith's forge to pagan splendour is told in the picture. His conquests as a gladiator, killing for pay, are gripping highlights. Finally, as master of the arena, he stages spectacles in which thousands are slaughtered for the amusement of a degraded and blood-thirsty populace. Then, at the height of his triumphs, he discovers that all his wealth and power cannot save him from the fate of the arena his son, who has defied the brutal Roman law.

As the drama unfolds through a vivid pageantry of fierce conflict and violent emotions, it advances towards the most spectacular and breath-taking climax—the destruction of Pompeii by earthquake and volcanic eruption. It is then, when the world is crumbling about his ears and all that the man cherishes is being swept away, that Marcus feels the urge of the Master's teachings and gives up his life to save the helpless ones about him.

Preston Foster, rapidly rising to screen stardom, plays the leading role of Marcus, the smith. Alan Hale, Basil Rathbone, John Wood, Louis Calhern, David Holt, Dorothy Wilson and Wyrley Birch play important roles.

### "HERE COMES TROUBLE"—MAJESTIC THEATRE

The entire story revolves about the romance of Paul Kelly, who acts the role of third engineer on a Havana liner, and his manicuring sweetie, Arline Judge.

When the ship docks, Kelly and his wild-eyed pal, Sammy Cohen, get into so much trouble ashore that Kelly is degraded to the stokehold on the return trip. Then, in a furnace-room blast, he risks his own life to save that of Mona Barrie. But Miss Barrie's gratitude proves a bone of contention between Kelly and Miss Judge.

The ship's pursuer is knocked out and Ratoff's gem stolen from the vault. Miss Barrie cleverly secretes the gem in Kelly's cigarette lighter and invites the amazed man to visit her in New York.

The climax of the picture proves a wild free-for-all. Kelly finds a strong-arm reception committee waiting for him at Miss Barrie's home, and is getting the worst of the battle when Miss Judge and Sammy Cohen enter at the head of a squad of police to save the day for Kelly, and provide a happy close for the picture.

## Amusements

### Cinema Notes From The Theatres

#### "THE PRISONER OF SHARK ISLAND"—KING'S AND ALHAMBRA THEATRES

Telling the true story of the most tragic figure in American history, this picture has Warner Baxter and Gloria Stuart in the leading parts and a supporting cast of over a thousand.

Dipping into the hectic days following the cost of the Civil War, the picture depicts the assassination of President Lincoln and the flight of his assassin to the country home of Baxter, a doctor.

For the unintentional crime of setting the broken leg of a man about whom he knew nothing, Baxter is arrested. In the hysteria that follows, Baxter is sentenced to the Federal Prison on the Dry Tortugas.

In stark, terrifying fashion the picture reveals the physical and spiritual agonies of this unjustly sentenced man, his desperate attempt at escape, his courage under the brutal degradation of prison life.

Finally a devastating epidemic of yellow fever brings a turn in his fortunes. With the prison doctor ill with the fever, Baxter is temporarily restored to his former position as he fights to stem the tide of death. A happy climax brings to a close of this profound saga of courage and strength.

John Ford, whose direction of "The Informer" has won the highest honours, directed this picture.

#### "FORGOTTEN FACES"—QUEEN'S THEATRE

Herbert Marshall is the star of the picture, and the lovely blonde Gertrude Michael plays opposite him. The story opens with Marshall as a devoted husband and father, deeply in love with his wife, Miss Michael, and almost worshipful where his baby daughter is concerned.

But his whole world is shattered when he returns home one night to discover his wife in another man's arms. In an emotional heat he kills the intruder and then, after arranging for the adoption of his daughter, he gives himself up. A stern court sentences him to prison.

Seventeen years later, he learns that his daughter, now grown to lovely womanhood, is about to marry and that her mother threatens to tell her fiancé who she really is unless she is paid to be silent. Marshall succeeds in securing a parole and establishes himself as butler in his daughter's household. On the day the mother approaches for her money she is confronted by her husband and a fiery, dramatic climax puts the finishing touches to two explosive and tragic careers.

"Forgotten Faces" offers one of those rare dramatic pieces of entertainment whose suspense is truly gripping. The acting is perfect and in addition to the two leads, special credit is due to Jane Rhodes, as the grown-up daughter, Robert Cummings, as her fiancé, and James Burke as Marshall's police-sergeant pal.

#### "THE IRISH IN US"—STAR THEATRE

This picture is Warner Bros. latest comedy drama and presents James Cagney, Pat O'Brien, Frank McHugh and Olivia de Havilland.

## Accountants' Ball In Aid Of The S.P.C.

In order to help the funds of the Society for the Protection of Children, an Accountants' Ball, under the auspices of the Accountancy-Secretarial Institute, will be held on Tuesday, June 30, at 8.30 p.m. at the Hong Kong Hotel Roof Garden.

Many prominent local artistes have consented to assist in entertainment. Among the outstanding attractions of the evening will be toe dances and tap dances by Misses Gloria Yee and Noruba Kew, pupils of Miss O'Keefe, well-known dancing teacher of the Colony. Master Bill Tze, clever little juvenile dancer, will also

## WOMAN'S DREAD OF WAR

A woman, on whom a verdict of suicide while of unsound mind was recorded last month at a Hendon inquest, was stated to have had a fear of war.

She was Marjorie Edith Cox, aged 31, of Egerton-gardens, Hendon. Her husband, Richard William Cox, said that she had been receiving medical treatment for her obsession.

## BRIDGE NOTES

### PRINCIPLES OF PLAY

By Ely Culbertson

Broad principles of play govern the proper technique of both the declarer and the defenders. There is a great number of these principles—to the novice, a bewildering number—and sometimes it is difficult to choose the right avenue to the desired goal. Conservation of honours, promotion of honours, suit establishment—these are not flowery phrases; each is a terse description of a vital process.

Confining our observations to the problems of the defenders, it must be pointed out that a skilful defence rests on the players' ability to visualise the best plan of declarer and to render it either impossible or difficult of accomplishment. Thus, if an opportunity arises in which an advantage can be gained only at disproportionate sacrifice—such as cashing one trick that will set up two for declarer—the canny defender will resist temptation.

West, in the hand shown below, saw the opportunity to force the ace of trumps by using his measly three spot. He drove a poor bargain by doing so.

North, dealer.

Neither side vulnerable.

The bidding:  
North East South West  
1 heart 2 diamonds 3 clubs Pass  
3 hearts Pass 3 spades Pass  
3 no trumps Pass 4 spades Doubles  
Final bid.

The diamond seven was opened; East won and continued the suit, South ruffing the second round. Double-dummy play, involving the immediate lead of trumps and forcing out of West's king, would, of course, have returned eleven tricks by the successful club finesse against the queen. But this wide-open play certainly would have been exceedingly dangerous—had the club queen been "off-side" the declarer would have made only one club trick.

Playing more conservatively, the declarer led to the king of clubs and back to the ace, following with a third round which he intended to ruff with dummy's ace, playing either for a 3-3 trump break or a minimum penalty on a non-break. But West, seeing no farther than his nose, thought that dummy's deuce of trumps would be used on the club unless he prevented it, and kindly stepped in with his three. Declarer's problem was solved—he ruffed with the ace and returned a trump. Now, when West put him in the dummy with a heart-lead, he had trumps enough to ruff a heart and draw West's remaining trumps for his contract with an over-trick. A heart discard by West on the third round of clubs inevitably would have defeated the contract.

## RADIO

### TO-DAY'S PROGRAMME

The following programme will be broadcast to-day from the Hong Kong Broadcasting Station Z.B.W. on a wavelength of 355 metres. (845 K.C.s).  
DAVENTRY RELAY—INTERNATIONAL POLO MATCH  
Dance Music  
12.30-2.15 p.m.—European recorded Programme.

## MIXED GALA TO OPEN EUROPEAN Y.M.C.A. SWIMMING SEASON

### SIXTY-SIX HUNDREDS IN MAY

### KIMPTON'S FINE BATTING

### AMARNATH EQUALS RECORD

Ceylon, May 30.

THE month of May is nearing its end and as far as I can make it out there have been 66 centuries obtained in this time, five by the Indian team. Amarnath has had the honour of notching three of these centuries, while Baqa Jilani, and Merchant have scored one each, writes "Onlooker" in the "Ceylon Observer." Amarnath has equalled a record for an Indian cricketer in England by scoring two centuries in one match.

Only five centuries have been recorded against the Indians by J. H. Human, A. H. Bakewell, Cutmore, Smith and Gimblett. The last named Somerset player was the first to score a century against the Indians. He has obtained three centuries so far like R. C. M. Kimpton, the young Australian at Oxford, who notched two centuries in one match against Gloucestershire. Leyland holds the record for the highest score of the month with 263. Patsy Hendren and A. B. Sellers are the only two other batsmen who have passed the 200 mark.

Hopwood of Lancs, Fishlock of Surrey, Hendren, Leyland of Yorks, C. S. Dempster, Ashdown, Harris of Notts, Turnbull and Keeton have each obtained two centuries. The following is a full list of the centuries scored this month. It will be seen that Sutcliffe and Woolley have not yet obtained a hundred, nor R. E. S. Wyatt.

### CRAIGENGOWER'S TENNIS WIN

### RADIO BEATEN AT THE VALLEY

### LOCKE AND RAPLEY FAIL BADLY

Craigengower Cricket Club secured their fourth victory in the "D" Division of the Lawn Tennis League yesterday when they beat one of the strongest contenders for the title, the Radio Sports Club, by 6 sets to 3.

T. Locke and W. Rapley were very weak, failing to win a set. This was the Radio's first defeat in two games, having beaten the Central British Association last week.

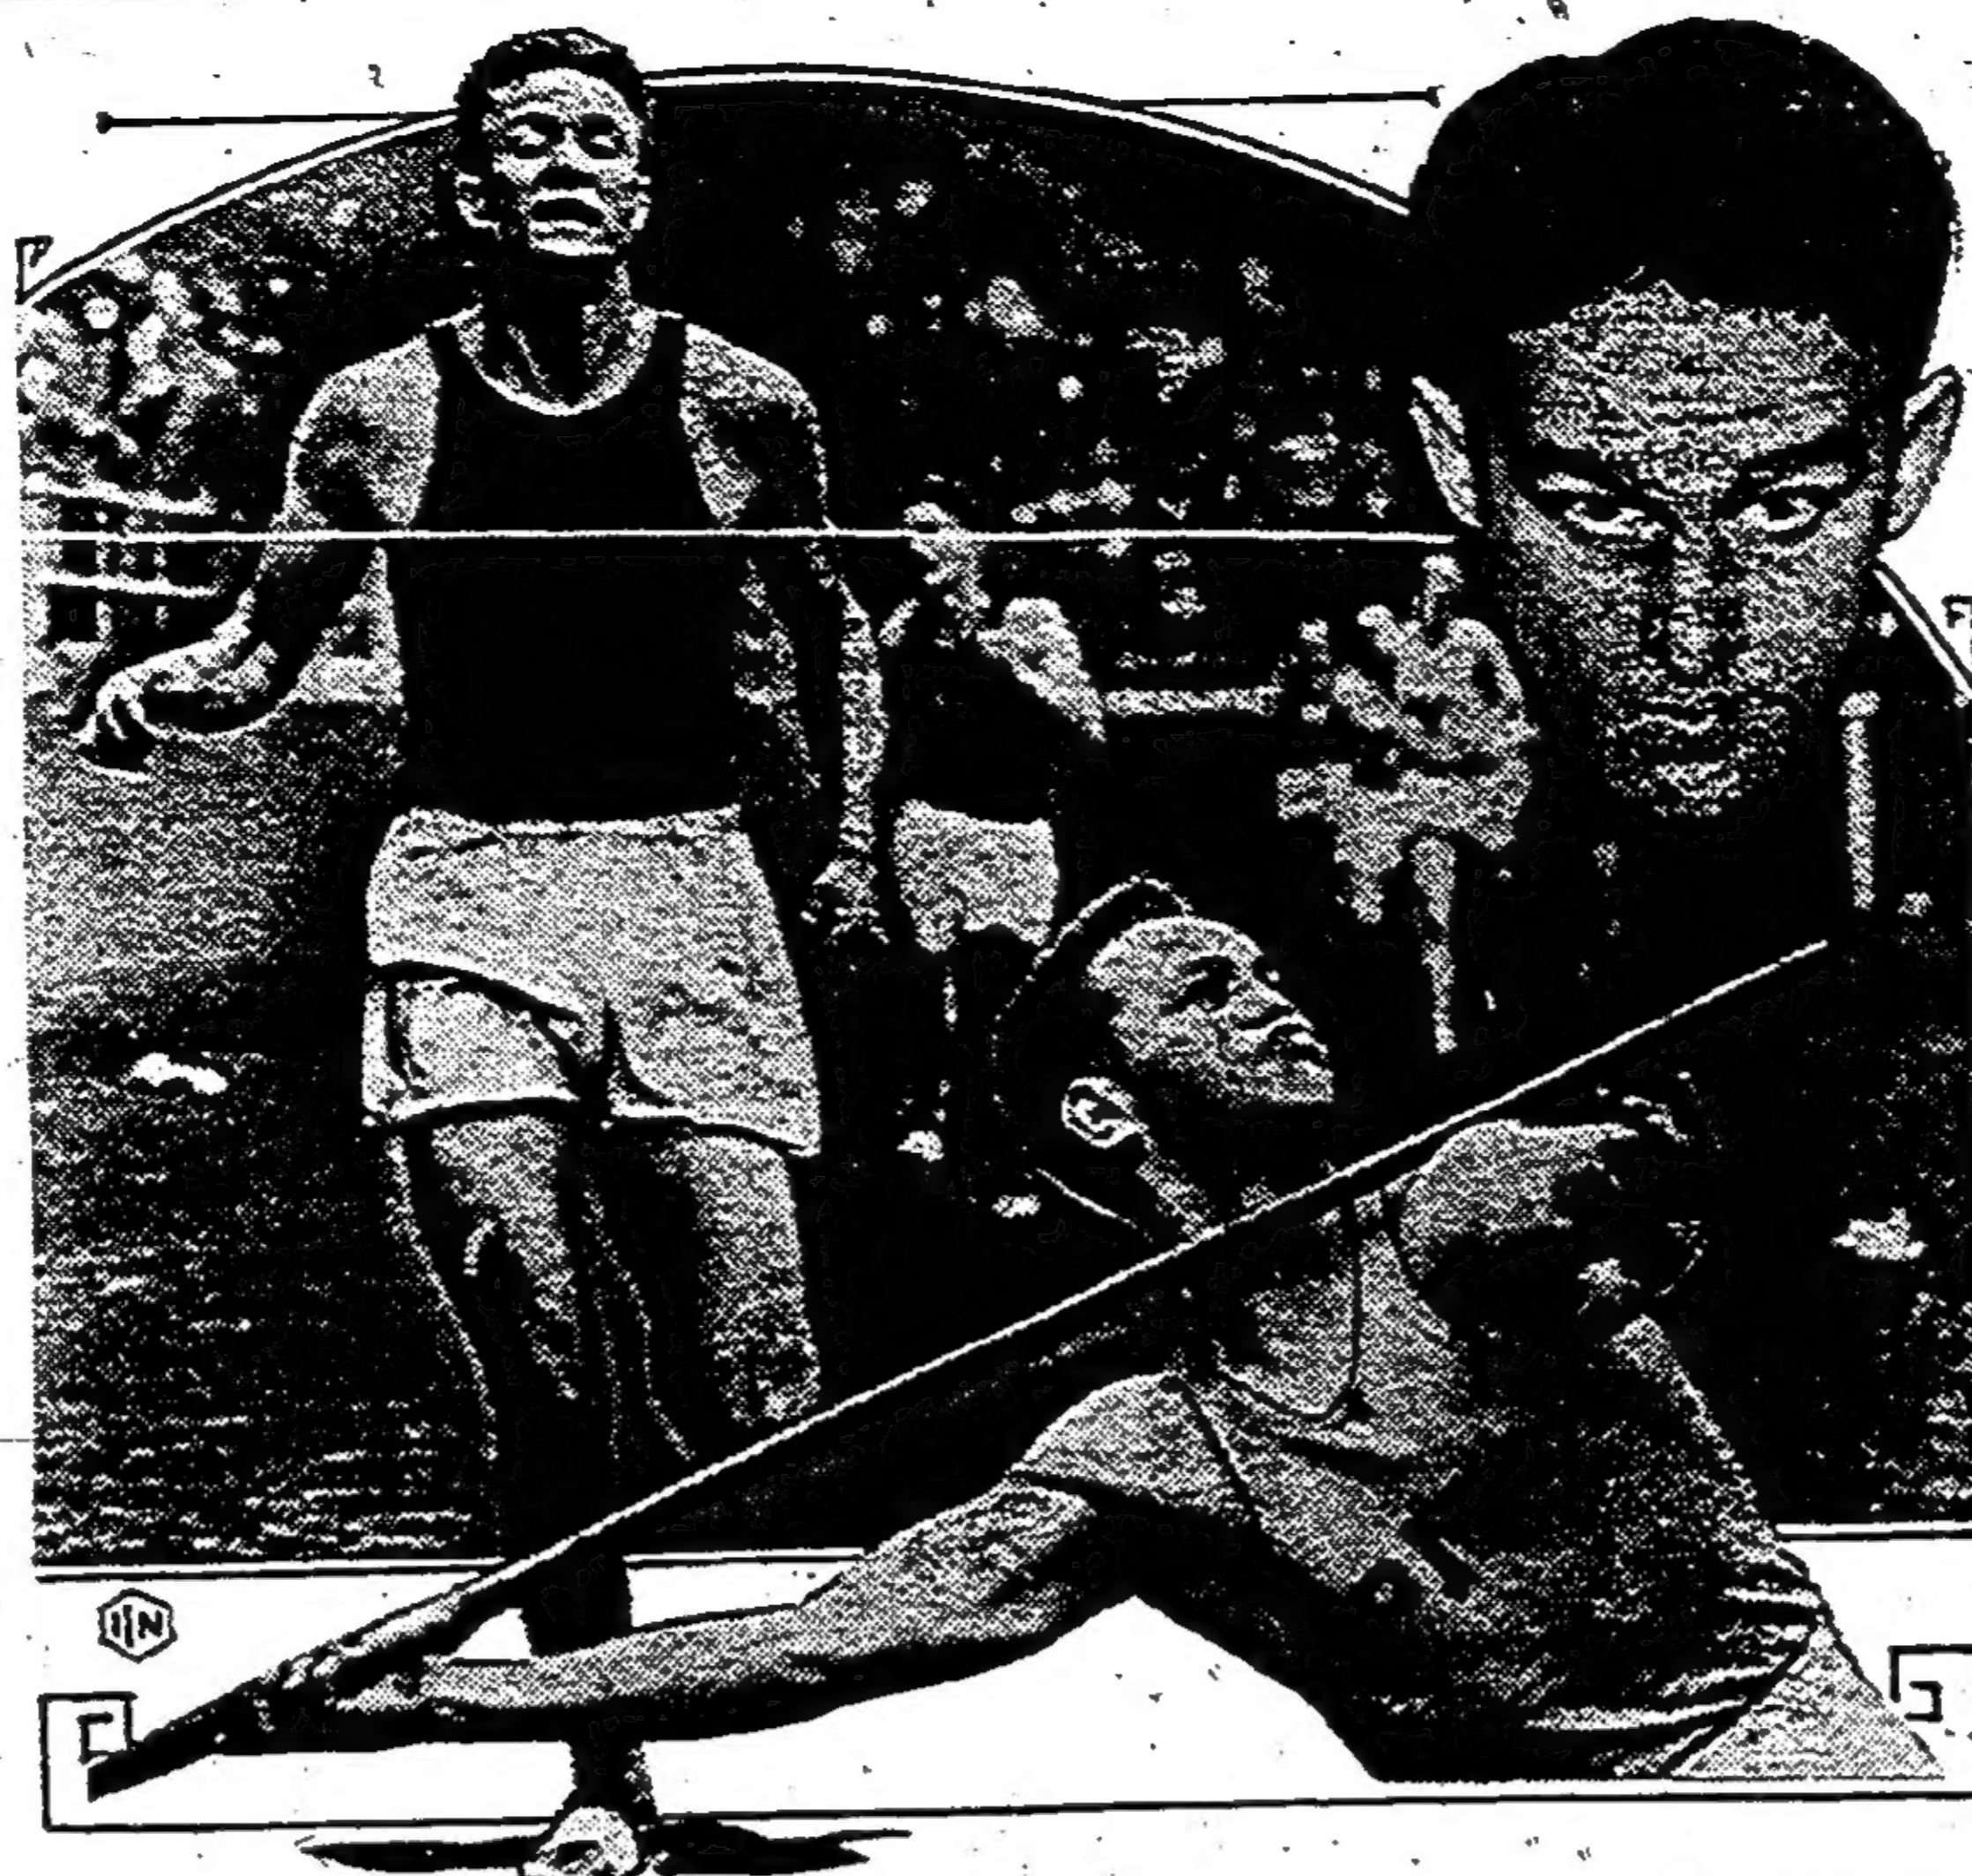

### SOUTH CHINA'S EASY WIN

### Major and Smith Shine For Police

South China Athletic Association gained their third victory in four games in the "D" Division of the Lawn Tennis League yesterday when they beat the Police Recreation Club by 6½ sets to 2½ at King's Park.

Major and Smith were the strongest of the visiting pairs, winning two and drawing the third of their three sets.

"D" Division League				
TABLE TO DATE				
	P.	W.	L.	Pts.
C.C.C.	4	4	0	25½ 12½ 8

A.T.C.	2	2	0	7 11 0

Without Pacific Coast competition this year in the Intercollegiate A.A.A.A. at Philadelphia, an eastern college is expected to be crowned champion for the first time since 1924, when Yale crashed through. Several Olympic prospects will be seen in action. Gene Venke, (left), star Pennsylvanian, is outstanding in his event. Eddie O'Brien, of Syracuse, national champion over 400 metres, faces stiff competition, while Gene Taano, of Pittsburgh, is counted on for points in the Javelin Throw.

### RECREIO HAVE BIG TASK AT AUSTIN ROAD

### GOOD BOWLS CARD FEATURED

### TWO INTRA-CLUB GAMES

The outstanding feature of this afternoon's Lawn Bowls League programme is the clash between the Kowloon Bowling Green Club and Club de Recreio at Austin Road.

### C.B.A. SHARE SPOILS WITH K.L.T.C.

### First String Fail Unexpectedly

Playing at King's Park yesterday, the Central British Association and the Kowloon Indians Tennis Club shared the spoils in their "D" Division Lawn Tennis League match.

The C.B.A., whose home match this was, secured their first point in the division after sustaining defeats at the hands of Craigengower, Radio and South China.

(Continued on Page 5.)

Wong Ki-leung (Wong Wing), above, unexpectedly returned to the Colony yesterday from the All-China World Olympic team's tour of the South Seas. He is at present suffering from an injured back and is a doubtful starter for Berlin.

### ALL-CHINA SOCCER TEAM WIN AGAIN

### Rough Clash With Medan Chinese

### PAU KA-PING INJURED

The All-China World Olympic soccer team secured another victory on Wednesday last when they defeated the Medan Native XI by 5 goals to 2.

The game was one of the roughest the Olympic team have yet experienced, Pau Ka-ping and several others being injured.

(Continued on Page 5.)

### GOOD LOCAL BASEBALL PROGRAMME

### Chinese Should Beat Canadians

### EASTERN'S BRIGHT OUTLOOK AGAINST JAPANESE

The Overseas Chinese should have no trouble in retaining their unbeaten record in the local Baseball League to-morrow, when they encounter the Canadians on the Causeway Bay ground and should thus consolidate their position at the head of the League table.

The Chinese are anxious to see how Ed. Chang, their former pitcher, will fare in this game as they would like to use him throughout the season in order that W. Ching, their present pitcher, can play at second base. Ed. Chang injured his arm early in the season during practice, but has been playing as an outfield since.

Another youngster who has been showing improved form is Al Fong, the catcher. Moa, the nippy short-stop, will be seen in his usual position.

Last Minute Change?  
The rest of the team is unchanged, and it is probable that M. Chang will come into the game in the last few innings at first-base.

(Continued on Page 5)

### L.R.C. DEFEAT THE ARMY

### Ali And Rumjahn Below Form

Playing at home yesterday, the Army Tennis Club sustained their second defeat in the "D" Division of the Lawn Tennis League when they were beaten by the Indian Recreation Club by 6 sets to 3.

The latter recorded their first win after losing to the Police R.C. last week.

(Continued on Page 5.)

### NOVICES' EVENTS TO BE FEATURED

### LADIES' SECTION MAKE GREAT STRIDES

### INTERESTING PROGRAMME

(By "Crawl")

THE European Y.M.C.A. will officially open their 1936 swimming season with a mixed gala on Wednesday, July 8, at 9 p.m. sharp, when a programme of eight events will be held, the outstanding feature of which will be the novices' events in both the Ladies' and Men's sections.

At a meeting held yesterday evening it was decided that the Ladies' Swimming Committee arrange their own programme comprising four events, one of which was to be a Mixed Novelty race with the Men's Section.

It was also suggested that, in view of the fact that there were several advanced swimmers among the ladies, their programme be divided into "A," "B" and "C" classes, the latter two being confined to novices and first year swimmers respectively.

The Ladies' 50 Yards Aggregate Handicap will be continued as in former years and this will be the one event in the Ladies' section which will be open to all three classes of swimmers. It was felt that as a result of handicapping, all swimmers had a fair chance no matter how good or bad they are.

The Ladies' Swimming Section have made great strides since the election of their own committee and plans are now being made to stage an all-ladies' swimming gala one Wednesday night next month.

(Continued on Page 5)

The following is the programme—  
Men's Section:  
Novices 50 Yards Free Style Handicap  
Men's 50 Yards Free Style Aggregate Handicap  
Men's 75 Yards Medley Relay (Teams of 3, Breast, Back and Free Styles), Mixed Relay (Teams of 6).  
Ladies' Section:  
Novices 25 Yards Handicap  
Novices 25 Yards Free Style Handicap  
Novices 50 Yards Aggregate Handicap  
Mixed Novelty Event.

(Continued on Page 5.)

### POSTPONED MIXED DOUBLES TENNIS MATCH

### Recreio And K.C.C. "B" Share Spoils

### WATSON AND MISS MACKENZIE IN POOR FORM

The inability of C. E. Watson and Miss A. Mackenzie to win a set cost the Kowloon Cricket Club "B" team victory against Club de Recreio in their postponed Mixed Doubles League encounter on their own courts yesterday evening, the match being drawn at 4½ sets-all.

A. V. Gosano, the Recreio singles champion, and Miss Clasy Botelho were the best of the visiting pairs, winning two of their matches and sharing the spoils in the third.

G. Clark and Mrs. M. McCaw (K.C.C. "B") beat Remedios and Miss A. V. Gosano 6-2.  
Rosz lost to A. V. Gosano and Miss C. Botelho 5-7.  
Beat C. A. Barretto and Miss A. Remedios 6-1.  
A. E. P. Guest and Mrs. Kew (K.C.C. "B") beat Remedios and Miss Rosz 6-4.  
drew with Gosano and Miss Botelho 6-6.  
Beat Barretto and Miss Remedios 6-1.  
C. E. Watson and Miss A. Mackenzie (K.C.C. "B") lost to Remedios and Miss Rosz 1-6.  
lost to Gosano and Miss Botelho 2-6.  
lost to Barretto and Miss Remedios 5-7.

### INTERPORT LAWN BOWLS DISCUSSION

### North Not Satisfied With Date

### PROGRAMME FOR TWO WEEKS

At the meeting of the Sub-Committee of the Hong Kong Lawn Bowls Association, held in the Board Room of the "South China Morning Post" yesterday, Mr. C. B. Hosking, the Hon. Secretary, informed the meeting that he had received a private letter from a member of the Shanghai Association, stating that they had received Hong Kong's acceptance of the invitation to send a team North for the Interport, but added that September would be a very bad time to stage these contests as the light then was always so poor.

Mr. Hosking asked the meeting to authorise him to write the secretaries of the clubs here, informing them that it was intended to send a team to Shanghai either in August or September, and requesting that they should submit names of any members able to make the trip on either of those two dates. This was carried unanimously.

Prior to this, the draw for the Second Round of the Open Singles Lawn Bowls Championship, and Third Round of the Open Pairs Championship was made and resulted as follows:

### MONDAY, JUNE 22

### Open Pairs

"J. Shepherd and L. Glendinning v A. E. Minn and S. O. Box, at P.E.C.  
"J. E. Noronha and F. X. Silva v L. Gutterres and A. A. Remedios, at K.E.C.C.  
"J. Greig and W. Mair v N. J. Bebbington and A. Hyde-Lay, at C.C.C.  
"L. C. R. Souza and E. P. Luz v A. E. Coates and J. Cavanagh, at C.S.C.C.  
"J. Henson and S. A. Bright v F. A. Machado and H. F. Rosario, at K.C.C.  
"R. Duncan and S. Randle v J. McKelvie and J. V. Ramsay, at Recreio.  
"H. E. Strange and E. R. Wood v M. A. E. Souza and W. V. Field, at Police R.C.  
\* Second Round.

### Open Singles

H. F. Rosario v W. L. Walker, at K.E.C.C.  
A. H. Rumjahn v W. Mair, at H.K.F.C.  
C. Champelover v D. M. Khan, at Electric R.C.  
"S. Riddell v A. E. Carey, at L.R.C.  
"E. J. Edwards v J. F. Lunny, at Tai-ko.  
(Continued on Page 5)

### MIZLER'S POINTS WIN

At a charity tournament at the Stadium Club, Holborn, Harry Mizler, (St. George's), Southern Area Light-weight Champion, out-pointed Jackie Flynn (Ireland) over 10 rounds.

## NOVICES' EVENTS TO NEW FEATURED

(Continued from Page 4)

A question of swimming instruction and the possibility of organized classes for both sections was left pending the next meeting, while it was unanimously decided that no admission charge would be made to "Y" members and their friends attending the gala.

The Men's events will be a 50 Yards Free Style Handicap race for novices, the Men's 50 Yards Free Style Aggregate Handicap for the Justice Wood Cup, and a medley relay event of three swimmers a side. The fourth event will be a mixed relay with the Ladies' section, of possibly six in each team, each swimming 25 yards.

The handicapping in both sections will be left to the Men's Section. It was also decided that, providing the gala concluded between 10.30 p.m.-11 p.m., members and their friends would be allowed to use the bath for Mixed Bathing until midnight.

## RECREIO HAVE BIG TASK AT AUSTIN ROAD

(Continued from Page 4)

Two intra-Club games will also be featured when Craigenower "A" and "B" and the Football Club "A" and "B" teams meet on their own greens at the Valley.

Of the five home teams in the First Division, the Civil Service Cricket Club are the only ones not forecasted to win, their visitors, the Kowloon Cricket Club, being considered a trifle too strong for them.

#### Green Advantage

Although the Portuguese are in fine fettle at the moment, the Kowloon Bowling Green Club are conceded a better chance of winning on their own greens.

In the Second Division the champions will visit the Recreio,

## GOOD LOCAL BASEBALL PROGRAMME

(Continued from Page 4)

In spite of the fact that the Canadians will be without their star pitcher, Dreany, they should be able to give a good account of themselves, providing they enter the field with confidence.

All three may not be as good as Dreany in pitching, but he is very useful, and, if given support by the fielders, there should be no reason why their rivals' score should not be kept down.

The strongest department of the Canadian team is their batting, though they failed very badly in their last game, when least expected. Should their batters return to form there should be no scarcity of runs for, apart from Oliver and Divett, there are at least four other members of the team—Muir, Mueller, Walker and Pearce—who also have a good eye.

#### To-morrow's Clash

To-morrow the Americans will encounter the unbeaten Volunteer team and should have little difficulty in winning, in spite of the latter's improvement.

Eastern are hopeful of providing the surprise of the season when they meet the Japanese Y.M.A., and, in view of the changes in their team, are capable of winning.

While Eastern will have the services of a good pitcher in Billy Woo, the Japanese are still looking out for a pitcher to replace Mikuni, and it is understood that Maruyama will be given a chance, together with Amaskai. The line-up of the Japanese team is uncertain, though all the regular players are available.

where an exciting tussle should take place, while the K.C.C. are conceded a good chance of winning against the Civil Servants to secure the "double."

The following is "Skip's" forecast:

## CRICKET NEWS FROM NEAR AND FAR

At the last meeting of the Marylebone Cricket Club held at Lord's recently, Lord Cobham, the retiring President nominated Lord Somers as his successor.

The new President of the M.C.C. was Governor of Victoria from 1926 to 1931 and Acting Governor of Australia in 1930-31.

Lord Somers, who is 49, was at Charterhouse and New College, Oxford. He played cricket for his school and for Worcestershire and was a fine rackets player. He won the Army Doubles Championship in 1908 with Major the Honourable J. J. Astor as partner. Playing for Charterhouse against Westminster in 1904 he scored 115 not out.

#### WRIGHT TO THE RESCUE

Warwickshire, led by Peter Cranmer, the Rugby international, in the absence of Wyatt, dismissed Kent in a little over four hours and a quarter for 218 at Edgbaston, and then, left with roughly 70 minutes' batting, made 79 without loss.

Right through the innings Kent were struggling for runs, and the position would have been critical if Wright, the youngest member of the side, had not come to the rescue.

Wright, whose bowling had so much to do with Kent's victory over Derbyshire, revealed that he has the making of a fine all-round player. Without taking any risk, he made many fine strokes, especially in front of the wicket. He scored 53 out of a total of 218.

#### CAPTAIN'S INNINGS

THE Essex opening batsmen failed badly at Lord's in their match with Middlesex, only a fine innings by their captain and some determined waggling by the tail saving their side from disaster.

Middlesex did little better, losing their first two wickets for 13 runs, and finishing the day 107 runs behind, with five wickets down.

The light was none too good when Essex went in to bat, which perhaps contributed to the early success of the Middlesex fast bowlers, Smith and Gray.

Hendren's slip catch off Smith, which dismissed Outmore, was an acrobatic affair. Taylor and Nichols quickly followed—Hendren obliging again in the case of the former, this time off Gray.

The fall of these wickets brought the Essex captain and O'Connor together, but O'Connor soon fell to catch by Peebles off Corington at deep square leg. Nor was this all, for a few balls later, Bray presented Peebles with the easiest of catches at forward short leg off Smith, and half the side were out for 54 after 70 minutes' play.

Eastman now joined his captain, and there were no more catastrophes before lunch. Eastman should have been taken in the slips off Gray just after the interval, and, profiting by this escape, he helped himself to 16 runs in the same over.

#### LARWOOD STILL FAST

LARWOOD took five Gloucestershire wickets for 56 runs at Trent Bridge, and despite his shortened run his speed baffled most of the batsmen.

In his first spell Barnett, Sinfield and Neale fell to him in ten overs for 21. Larwood had five slips and a backward point, and although bowling for an hour before lunch he never lost his length.

Gloucestershire were all out for 183, and Notts scored 201 for the loss of Keeton and Walker.

In addition to his bowling, Larwood held a smart catch in the slips, and when Hopkins and Cranfield were making a last wicket stand, he ran out Cranfield with a splendid return from square leg. When Nottinghamshire went in to Keeton left to a wonderful catch in the gully with only five scored, and Walker was out with the total 89.

#### BRITISH SOCCER TEAMS WIN

Two British Soccer teams have won matches on the Continent. Chelsea beat a local side at Gothenburg by 4-0, and Huddersfield Town won their first match in Norway, defeating Lyn at Oslo by 7-2.

If Gloucestershire had hopes of dismissing Nottinghamshire cheaply, Hardstaff and Harris quickly disappointed them. They were together at the end of the day, adding 162 runs in an hour and 50 minutes.

#### TATE SAVES SUSSEX

MAURICE TATE helped his side out of a big difficulty against Leicestershire at Hove in a splendid stand with H. Parks gave Sussex 297 runs when they looked like getting many fewer.

Leicestershire replied with 83 for three, so that they are 214 behind, and seven wickets are standing.

It was with the bat, then, that Tate did his rescue work, not as a bowler. He used it well enough, moreover, to suggest that he may follow the tradition of other great all-rounders when the fever and fire have died down a little and devote himself to batting—once upon a time he went in first for the county, so that this run-getting phase would not be exactly a new adventure.

Thrice already he has beaten his highest score of last season, which was 36. He opened at Cambridge with 45, and, after scoring 67 at Swansea on Friday last, he made 69 against Leicestershire.

This achievement was especially good because he went to the crease when Sussex had lost six important for 136 on a pitch that may have been made difficult for a while by the nearness of the sea, but was a run-getter's pleasure later.

H. Parks was at the other crease, fighting a lone hand, for he had seen the exit of Melville at 116 and of Holmes after Melville's successor in the captaincy had struggled 20 minutes for 4.

#### "G. D. AND JOE" AT LORD'S

THE enthusiasm of Worcestershire, who came to Lord's fresh from their conquest of the champions as well as All-India, was considerably chilled, not only by the weather, which grew more and more wintry as the sunless hours went on, but also by Middlesex, who batted the liveliest day and scored 468 for eight wickets.

G. O. Allen made 137 of a match-winning total, and another century was completed just before the close—by Hulme. These two batsmen, whom the St. John's Wood spectators now speak of admiringly as "G. O. and Joe" when they are together, were partners most of the afternoon, and they added 211 for the sixth wicket.

It was a worthy stand, against an attack which was helped by the changed weather, a gusty wind making the flight of the ball often puzzling. Allen gave no chance, and Hulme only one—when he was 40—but it cannot be said with much confidence that the fieldsmen would have accepted any others had they been offered.

The story of the play, indeed, so far as Worcestershire were concerned, was one of much misfielding and many missed catches.

#### 42 IN NINE HITS

ALL-INDIA batted confidently against Northamptonshire at Northampton. They had scored 304 for five wickets at ten minutes to six, when bad light stopped play.

Amar Singh, a member of the All-India side of 1932, who now plays for Colne in the Lancashire League, was included in the side, and he scored 53 out of 73 added in 45 minutes for the fifth wicket.

He hit 42 runs in nine strokes—three 6's and six 4's. In stopping one of his drives, Timms, fielding at cover-point, badly bruised a hand, and had to leave the field.

The Maharaj Kumar of Vizianagaram at last had the good fortune to win the toss, but with 15 runs scored, Mushtaq Ali was run out. A fine cut went nearly to the boundary; the batsmen hesitated over a fourth run and this indecision cost Mushtaq Ali his wicket.

At this stage some dew remained on the pitch, and to make matters worse for the batsmen heavy clouds gathered. Hindlekar and Merchant were not troubled. Revealing sound defence they raised the total by 57 in an hour and a half before. Hindlekar, rather unluckily, deflected a rising ball into his wicket.

## Craigenower Bowler

M. OMAR, the Craigenower "B" team lawn bowler, above, was educated at St. Joseph's College and first played in competitive sport as a goalkeeper for his school in the Second Division of the Football League in 1927. He was promoted to the senior team two years later. In 1930 he led the Third Division team and was their leading goal-scorer.

He has since played for the Eastern Athletic Association and the Young Indians' Football Club. Omar commenced his lawn bowls career at the Indian Recreation Club in 1933, when he played in the Second Division. He won the I.R.C. Singles and Pairs Championships the following year.

He was a member of the Indian rink which won the Gutierrez Shield last year, later transferring to Craigenower Cricket Club. Omar played baseball for St. Joseph's College in the Junior Division of the local League in the 1928 season as a pitcher, while among his other sporting accomplishments, he is a fairly good cricketer and a sound tennis player. [Another personality will appear on Monday.]

## INTERPORT LAWN BOWLS DISCUSSION

(Continued from Page 4)

TUESDAY, JUNE 30

Open Singles

A. M. Holland v E. M. Remedios, at K.C.C.  
 B. Basto v W. Macfarlane, at K.B.R.C.  
 F. V. V. Ribeiro v R. G. Craig, at Talloek.  
 M. J. Henderson v J. V. Ramsay, at Recreio.

THURSDAY, JULY 1

Open Singles

A. E. Coates v T. Ferguson, at Recreio.  
 J. E. Henson v U. M. Omar, at K.B.R.C.  
 J. D. Thomson v J. J. Basto, at K.C.C.

RECREIO FOUR WIN

On the Talloek Recreation Club green yesterday, a Recreio rink comprising F. Machado, C. S. Alves, P. Yvanovich and H. Rosario (skip) beat a Police quartette comprising R. Ellis, S. Farlow, W. S. Dall and J. Shepherd (skip) by 22 shots to 17 in the Open Rinks Championship.

## SIR A. BAILEY WINS FIRST CLASSIC

## OAKS FAVOURITES FAIL IN SLOW RUN RACE

### LOVELY ROSA A 33-1 WINNER

London, May 30.

IF the result of the Derby on Wednesday was surprising, that of the Oaks yesterday was astounding. It was won by Sir Abe Bailey's Lovely Rosa, who started at 33 to 1. She was a fairly easy winner by three parts of a length from Sir Frederick Eley's unlucky Barrowby Gem, with the King's filly, Feola, beaten by two lengths for third place.

It was an amazing race, for all the fancied fillies—Tide-Way, Silver Birch, Traffic Light and Feola—came into the straight with everything in their favour. They had had a clear run, and all of them had equal chances after rounding Tattenham Corner.

Yet, one by one, they dropped back beaten, and the only one that kept up the gallop for a time was Feola. The first to crack was Tide-Way. In spite of the ground being so much against a filly with a weak joint, she was strongly supported, and finally ousted Silver Birch from favouritism.

Tide-Way had taken the lead, coming down the hill, and a splendid position near the rails, but as she made the turn her stride was shortening ominously, and they had not gone a furlong before she dropped back beaten.

#### Silver Birch Beaten

Then Silver Birch and Traffic Light came on disputing the lead. Silver Birch was the first of these to go, and she dropped out beaten.

Below the distance Traffic Light was left in front, but she also weakened and dropped back. Then Weston, who had been nearly lost of the field for most of the distance, came with a powerful run on the outside on Lovely Rosa in the last furlong and headed Feola.

She was immediately challenged by Barrowby Gem, but the challenge came too late. Barrowby Gem was going at least as strongly as the winner when they passed the judge, and Beasley considers his mount to be the unluckiest of losers, for he was bumped at the Corner and then was bailed time and again for an opening. When he got it his filly fairly flew. This jockey has no doubt that had he had as clear a run as the winner he would have beaten her, for the daughter of Hurstwood was staying on well.

#### French Filly

Behind the fourth, Traffic Light, came Salopette fifth, Silver Birch sixth, Venue Clichet seventh, Tide-Way eighth, and the Aga Khan's filly, Her Sister, 10th. The good-looking French filly Royale-buche was never there.

There were some really good-looking fillies in the Oaks field, and I thought the general average was higher than that of the colts in the Derby. It was nothing like so well run a race, however, as the Derby, as the time, 2 min. 36 sec. against 2 min. 33 4-5 sec. shows.

It is an astonishing thing that of all the good horses Sir Abe Bailey has bought or bred in the course of nearly half a century he has never had a classic winner until Lovely Rosa, though his Robin Goodfellow ran second in the Derby last year.

Sir Abe Bailey, who returned from South Africa a few weeks ago, is not in the best of health and although he was present he could not leave his box. Lady Bailey led in the winner.

## AN AMAZING GOLFER

### Stylist Triumph Over Brawn

## "WE ARE A WONDERFUL RACE"

London, June 9.

A stylist triumphed over a brawny and bonny fighter in the amateur golf final at St. Andrews. Hector Thomson proved himself two holes better than Jim Ferrier, who had travelled from Australia to deliver a magnificent challenge for the honour.

Beyond question, Ferrier would have backmarked any ordinary golfer. Thomson is something more than that. He has the calm manner of the great exponent, the ability to rise to a special occasion.

#### Confidence

Ferrier could not shake his confidence. Thomson is twenty two years; Ferrier twenty-one. Two amazing young men.

Eight thousand people saw their dramatic struggle. The pressure at times was very severe. Eight thousand people to watch two young men hit a stationary ball. We are a wonderful race.

## BRENTFORD MANAGER AND CONTINENTAL GAMES

### Protest Against Rough Play in Lisbon Match Ignored

London, May 21.—When the Brentford party returned to England from Portugal yesterday, Mr. E. Curtis, the manager, spoke of the rough games in which the team had played.

In the game with the Sporting Club of Lisbon, he said that play became so rough that just before the interval he was forced to call his players from the field. His protest to the referee had been ignored. The match was resumed after a delay of nearly 25 minutes, during which the Portuguese players were seen by officials. Mr. Curtis added that all the Brentford players had received minor injuries.

## SIXTY-SIX HUNDREDS IN MAY

(Continued from Page 4)

#### The Bowlers

The most successful bowlers have been Verity, Freeman, Gover of Surrey, Copson, Hollies, Goddard of Gloucester, Robins and F. R. Brown.

The first Test match is approaching and England's selectors will soon be announcing the names of the men chosen to meet India. At present it is not easy to say whom the selectors will choose.

G. O. Allen proved an all-round success when leading the M. C. C. team against India. Since then he has hit up a century for Middlesex and bowled successfully too.

A likely eleven will be:—G. O. Allen, E. R. T. Holmes, R. E. S. Wyatt, H. Verity, M. Leyland, Joe Hardstaff, Gover (Surrey), Hopwood, Robins and a wicket-keeper.

#### Six All-Rounders

In this team I have named there are six all-rounders: in Allen, Hardstaff, Gover (Surrey), Hopwood and Robins, each of whom has hit up more than one hundred. There are two other bowlers in Verity and Gover of Surrey so there are 8 bowlers available and no one will be overworked. The batting is also strong, with only Gover a weak batsman.

Ames is on the sick list but there are several good wicket-keeper batsmen available. Duckworth of Lancs may be the selectors' choice.

Keeton, Fishlock and Copson also should be in the running for Test match honours this season.

The "Great Betrayal"

Public opinion still counts for something in England, for which let us thank whatever gods there be; so that there is still a chance that the "Great Betrayal" which the Labour Party so castigates may not become an accomplished fact. Because there is surely not the slightest doubt that the declared British policy, if carried through, will cause the national name so to stink in the nostrils of decent men that it will take centuries to remove the stigma. It is difficult to see how that policy can possibly be approved by the man in the street. It would literally be a betrayal of the millions who by their clamour voiced a denunciation of the Hoare-Laval proposals with such unexpected strength. It now appears to us to be patently obvious that the Government is riding for a tremendous fall if it persists in its declared policy of lifting sanctions and "trucking" under to force of circumstances. Throughout this sorry business it has been a malicious pleasure for enemies of the country to insist that the attitude of Britain at all material times was actuated by selfish and the narrowest motives of self-sufficiency and gain. The firm stand taken by Mr. Anthony Eden, both when he was Minister for League Affairs and latterly when he was appointed Foreign Secretary, patently belied the innuendo—or so it seemed to those of us who honestly believed that Britain meant what she said. In fact, one of the most inspiring things about the whole business was the apparently honest leadership of Britain in the collective attempt to stop Mussolini's mad campaign of slaughter.

It now appears to be evident that the apparent calumniators have been right all the time. How else to explain this sudden change of face? The argument that it is forced upon the Government as a sort of writing-off of a bad debt simply will not do. No one can help but admit that the League has failed in its elementary duty of protecting one of its members against unprovoked aggression, which has been unequivocally denounced. To sit back now and calmly permit the aggressor to derive what benefits he can from his aggression is the very worst sort of defeatist and despicable policy. To call it a "Great Betrayal" is not in a slightest degree an exaggeration. It is a betrayal—and a lot more. It is a scandalous and utterly contemptible piece of moral cowardice. We know all about the threat of extensive trouble which would follow retention of the only honest course of continuing sanctions. But since when has Britain turned tail and fled, abandoning all her principles of honour and integrity, at the threat of danger? Since when has she suddenly been prepared to abandon her great role of moral leadership to knuckle down like a sinking cur before a hint,

EXPLANATION  
OF TO-DAY'S  
CARTOON

The Most Contemptible  
Traitor

DR. Edward Bancroft (1744-1821) of Westfield, Mass., educated as a physician in England, was the meanest traitor in all American history. He insinuated himself into Benjamin Franklin's confidence and was by the latter installed in a confidential capacity with Silas Deane, American Commissioner in France. While ostensibly serving as a spy in England for Deane, he was at the same time betraying all the American secrets to the British Intelligence Service, for which he received from \$2,000 to \$10,000 a year from the enemy of his country. He kept Great Britain informed of every shipment of arms, supplies and troops to his native country. His activities endangered the American cause and materially prolonged the Revolutionary War. The French Government complained that everything it did was known to the British Ambassador. The double spy then did not hesitate to accuse others of the machinations of which he alone was guilty.

Your Daily Smile!

A candidate addressing his constituency was surprised by a voice which, calling from the back of the hall, said: "Well, I don't care what you say, I wouldn't vote for you if you were the angel Gabriel."

Came the reply: "If I were the angel Gabriel, you wouldn't be in my constituency."

Airman (after landing in a tree): "I was trying to make a new record."

Farmer: "You did. You're the first man to climb down that tree before climbing up it."

Best man (seeking bridegroom after the ceremony): "Wham! Sandy?"

Guests: "He's round at the back of the car, trying on the old boots."

"Ten stitches did the doctor have to put in my husband after the fight with your old man last night."

"Ten, was it? Well, when the doctor seen my poor husband carried in, says he: 'Has any one got a sewing machine?'"

"My last boarder was a wonderful artist," sighed the landlady as she backed at the pie crust. "He always said he found inspiration in my cooking."

"Ah! A sculptor, I presume," said the boarder, surveying his bent fork.

or even a probability, of trouble? If it is argued that elementary principles of material gain or loss are involved, then every single accusation of bad faith which has been levelled at the country by calumniators is fully justified. We have all along insisted that we were fighting for an ideal, that we were on the side of right as opposed to might; we have congratulated ourselves that in a world where moral principles were lax we, at least, have been imbued with some sort of altruistic championship of the weak and needy. Scoffers, at the rate of ten a penny, have been only too vociferous; we have been accused of every form of hypocrisy and cant. Now, unless this shameful policy is revised, all our protestations will be worth nothing and every single one of these accusations will have been proved to be true. The *Morning Post* talks about the "courageous" decision of the British Government; and *The Times*, which could hitherto be depended upon for moral leadership in the policies of the country, in its evasive talk about "energetic and competent leadership," is most obviously uncomfortably unable to face the plain issue. Where is the "courage" in abandoning your guns at the first hint of trouble ahead? Where is the "energetic and competent leadership" which abandons a moral and highly idealistic leadership for a craven and "grovelling submission?"

The "National" Government will most certainly be misrepresenting the wishes of the nation if it persists in this degrading policy. The Hoare-Laval proposals raised a pretty storm of public protest; we shall be very much surprised indeed if a veritable hurricane of disapproval is not raised in England at Britain's proposed change of face.

Here  
There  
and  
Everywhere.

NO SALARY, NO DOLPHINS  
Lord Willingdon, who has succeeded Lord Reading as Lord Warden of the Cinque Ports, will receive no salary for the office. The salary of £3,000 a year was abolished before Lord Palmerston became Lord Warden in 1861.

The only charge on the Treasury in connection with the office is the upkeep of Walmer Castle, which Lord Willingdon will have as his official residence.

His only "perks" are the rights of "flotsam, jetsam and lagan" within the area of the Cinque Ports. Even these rights are not quite so extensive as one might imagine, since whales and dolphins cast ashore belong to the King as "royal fish."

"Flotsam, jetsam and lagan" mean respectively floating goods, goods cast ashore and goods on the sea bed.

IN LORD READING'S FOOTSTEPS  
Lord Willingdon's career has been very similar to that of the late Lord Reading, whom he succeeded.

They were contemporaries on the Liberal benches of the House of Commons for six years. Both were raised to the peerage during the last Liberal administration, Lord Willingdon in 1910 and Lord Reading in 1914.

Both have been elevated, rank by rank, four times in the peerage.

Both became Marquesses on relinquishing the Viceroyalty of India, and the Cinque Ports appointment followed in each case. Lord Willingdon, like Lord Reading at the time of his appointment, is in his early 70s.

GERMAN'S WINDOW FALL

Bernhard Breslauer, aged 23, a German visitor to London, fell 35ft from a window in Fitzjohn's Avenue, Hampstead, last month and died in hospital.

CATTLE BEFORE POLITICS

The Irish Free State Parliament assembled recently at 5 p.m. instead of 3 p.m., so that members might visit the Dublin Spring Agricultural Show.

ASTROLOGY—SCIENCE  
OR SWINDLE?

"ILLEGITIMATE SISTER  
OF ASTRONOMY"

VENERABLE ANTIQUITY OF THE  
OLDEST OF HUMAN ARTS

(By Benjamin Farrington)

ASTROLOGY has been called the illegitimate sister of astronomy.

It might be more accurate to call her the mother of astronomy—an invincible and disreputable old mother who has lived on to be the disgrace of her respectable daughter.

For astrology is one of the oldest of human arts, and, in view of its venerable antiquity, it is not remarkable that it can claim from time to time a numerous if nondescript following of people who think there may be something in it.

Popular newspapers would hardly feature astrological calendars unless there were readers who consulted them. There must be people who want to know that "the aspects of Venus to-day may produce strange love adventures," or that "the day's lucky number is eight." And it used to be said in a certain big modern city that the professional astrologers were never so busy as when the share-market was lively. For if the planet Venus presides over love, there is another planet, Mercury, who, according to age-old belief, presides over business and swindling.

Casting Horoscopes

The only astrologer I ever knew personally came to me once when he was in trouble with the police. His business was a modest one; financiers were not among his clientele.

He had asked a fee of two guineas for casting a horoscope, and his disappointed customer had accused him of obtaining money on false pretences. My friend was a firm believer in his art. He gave me some understanding of the mass of data he had to consider and the elaborate calculations he had been at the pains of making in order to cast this particular horoscope. I felt that, however unsatisfactory the result, he had worked hard for his two guineas, and I was glad when the magistrate acquitted him.

After all, a professional man is paid for his skill, not on his result. As my friend said to me, at the time, a doctor is not denied his fee if the patient dies.

This comparison between the astrologer and the doctor, however unfair it may be to the medical profession to-day, is full of historical significance. There was a time when astrology, like medicine, was looked upon both as a science and an art, and that by the best intellects.

Queen Of Sciences

Indeed under the Roman empire, and again at the Renaissance, there were those who claimed that astrology was the queen of the sciences and the most precious of the arts. What were its claims to these titles? Why must it forfeit them to-day?

The claims of astrology in ancient days may be briefly explained, thus. Primitive man all over the world deifies nature in various aspects and believes, in a sympathy between himself and nature.

Among the Babylonians, who created the science of astrology, the stars, including the sun, moon, and the planets, were regarded as the divinest element in the universe and a sympathy was supposed to exist between them and man. It was supposed that life on earth was controlled by events in heaven; and 3,000 years before Christ the practice of observing the behaviour of the heavenly bodies in order to anticipate thereby events on earth was instituted.

Experience has shown the limits of the useful application of this art. It is, of course, true that the whole cycle of life on our planet is conditioned by the relative positions of earth and sun, that the moon affects our tides, and that an accurate knowledge of the courses of the sun, moon, and planets, which we owe principally to the Babylonians, has turned the face of the sky into a great clock by which the activities of civilised

# AIR TAXIS FLYING INTO THE CITY OF LONDON

## "ANTICER" TESTED BETTER SAFETY FOR PLANES ICE FORMATIONS LIQUIFIED

To Be Fitted To  
All Machines

London.  
An air liner fitted with an apparatus to prevent ice from forming on its control surfaces has been delivered to Imperial Airways here by the De Havilland Company.

This machine is to be used on European air routes which cross regions where "icing" has recently caused considerable dislocation of traffic.

If the apparatus proves as successful in actual use as it has shown itself in the laboratory, the Imperial Airways Company will have all its future machines fitted with the device.

### Ice Is Liquified

"The principle of the Anticer is that it makes the ice which forms on the wings liquify," an official of Imperial Airways said. "A mixture of ethyl alcohol and ethylene glycol is poured on to the leading edges, with the result that ice is liquified and immediately blown away by the wind."

The Anticer is under the control of the pilot. It can be worked for five hours continuously, the Royal Aircraft Establishment, which has been responsible for its development, claims. It weighs 65 pounds and employs three gallons of liquid. It is claimed for it that it can remove ice formations three inches deep in five minutes, and that, if used before deep ice occurs on control surfaces, dangerous thicknesses of ice cannot form.

### How, Where, Why Of Ice

The experience with the Anticer will, it is said, be of great service to aircraft companies in general, as a result of the international air traffic convention held at Amsterdam last year. There it was decided to issue a questionnaire on ice formation to each airway company in Europe and to pool results.

Eventually it is hoped to collect sufficient data to discern exactly how, why and under what specific conditions icing occurs on aircraft. Little is said to be known to form when it could scarcely have been expected. Once formed, ice on the leading edges and control surfaces of an aeroplane reduces speed and lessens climbing powers. The camber on the wings may be altered and it often happens that ice forces an aeroplane down, sometimes to disaster.

### Mechanical De-Icer

The British chemical Anticer has a rival in an American patent. This is a mechanical method of breaking up ice formations. Three parallel inflatable tubes that stretch from the wing root to the wing tip are incorporated in a canvas apron that can be fitted over the leading edge of the wing.

As soon as the pilot sees ice forming, he can inflate these tubes with compressed air. The tubes with the outer ones, this causes a rocking motion of the air which, coming with great force as the craft speeds through the air, cracks the ice and lifts it so that it is swept off by the air currents.

### NEW SPEEDOMETER

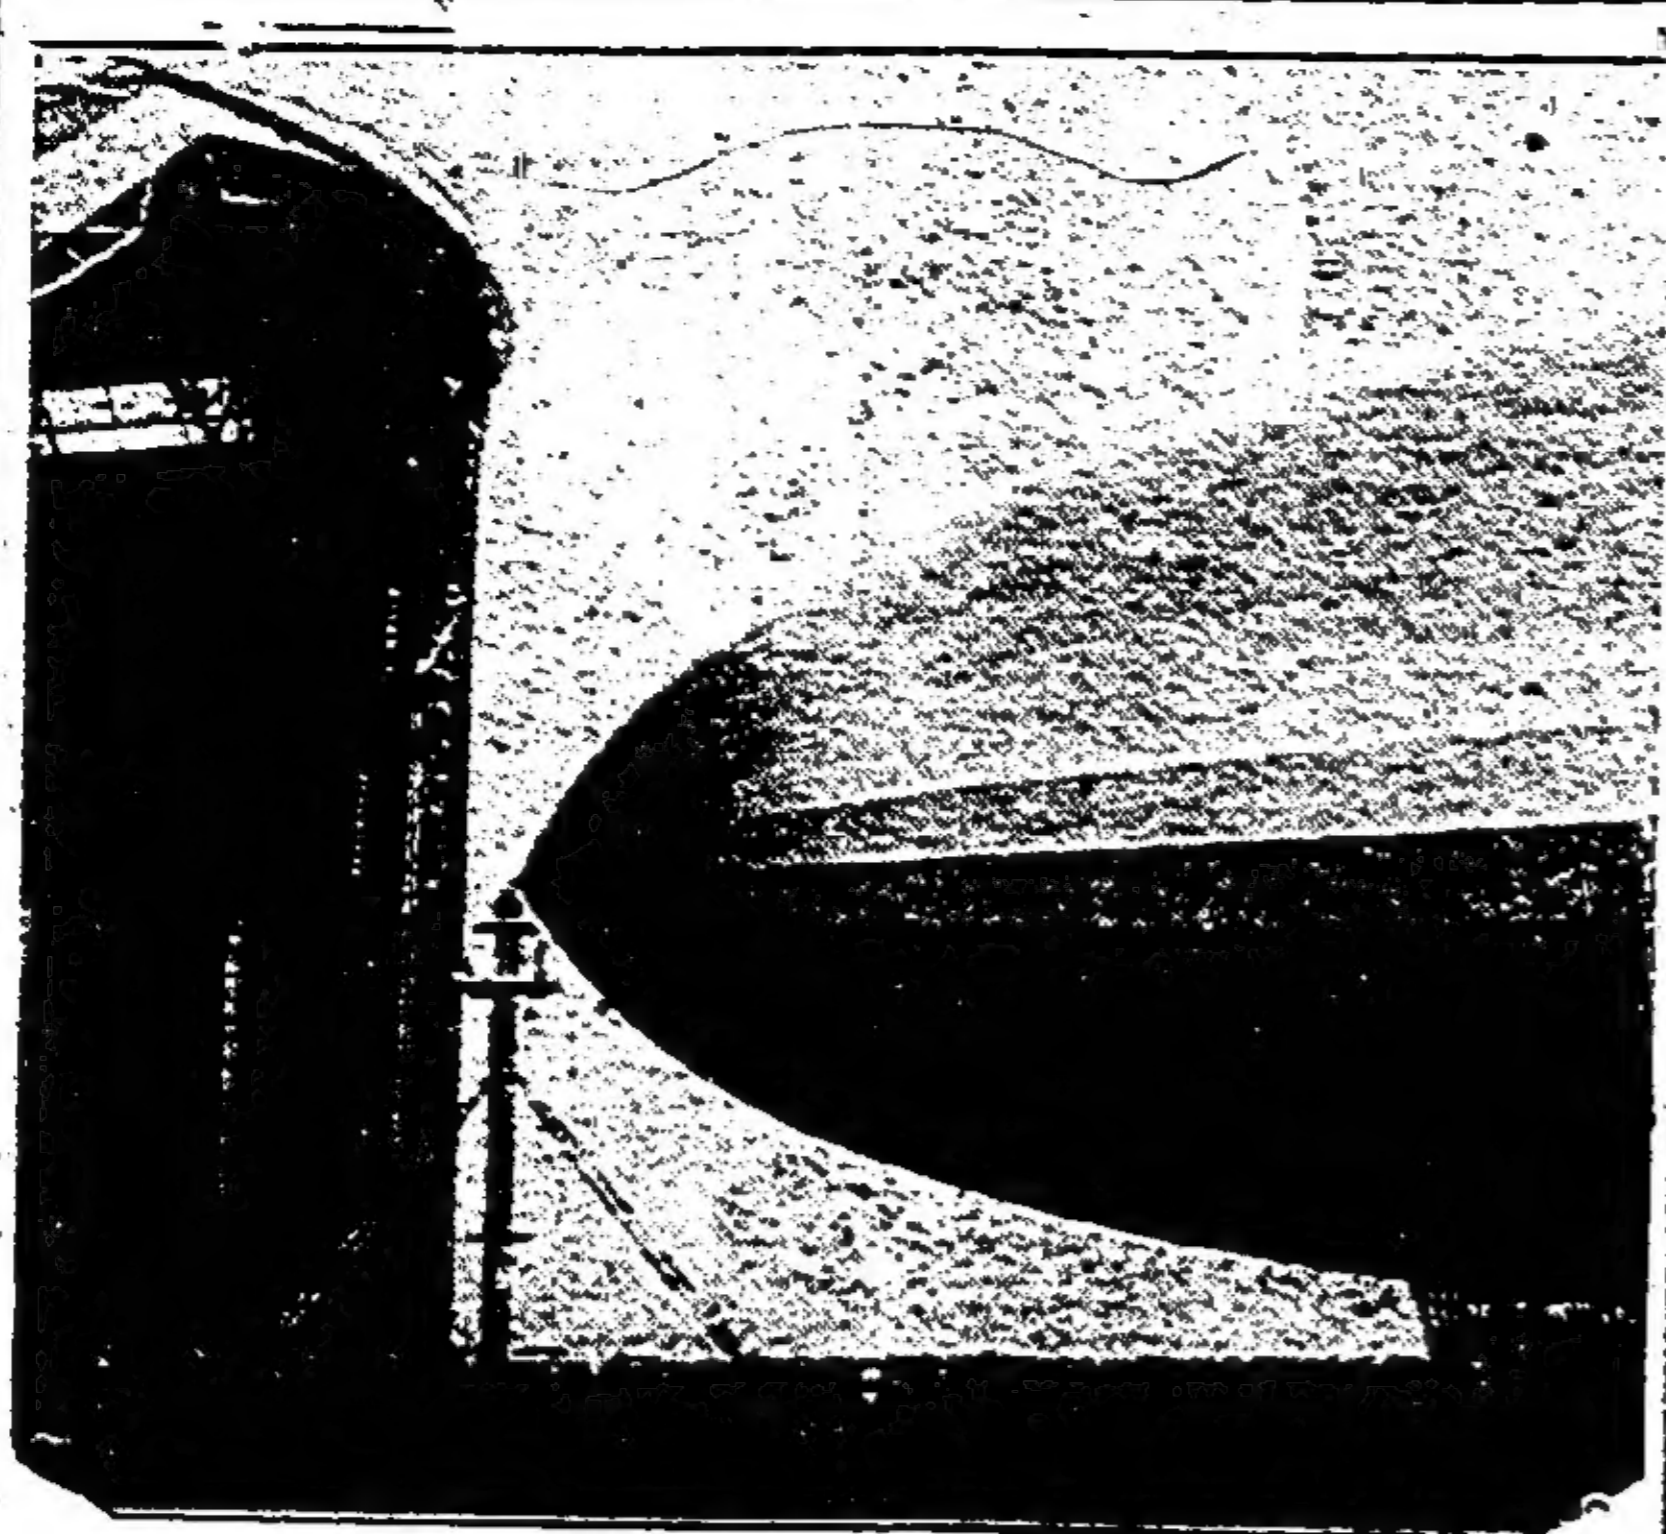

A new device weighing only 12 pounds employs the inertia of a pendulum in recording accurately the true land speed of a plane while it is in flight.

### APPROACH OF ENEMY MACHINES

Recent aviation patents include a device which is claimed will detect the approach of enemy aeroplanes.

### U.S. MILITARY PLANES

The average value of U.S. military planes built last year was \$20,221.

The airship Hindenburg recently completed a successful two-way crossing of the North Atlantic in record time. Here she is seen using the new anchor-mast at Rhein for the first time. On the right Captain Lehmann is observed superintending the landing manoeuvre.

## A DAY AT LONDON'S AIRPORT CONSTANT FLOW OF TRAFFIC FROM DAWN TO DUSK

With summer timetables now in operation, more than 60 aircraft, inward and outward-bound, fly in and out of the London airport, Croydon, daily. These include newspaper carriers, cargo-craft, specially-chartered planes, air-liners to and from the Continent, services to and from destinations throughout the Empire, and fast air expresses of the British internal air routes.

In the early hours of the morning the aircraft which carry newspapers to the continent are taking on board their loads and vanishing over the hills on their way to the coast. An early arrival at Croydon is a big German mail and freight plane operating on the night service from Berlin. After this there are the departures of early-morning passenger-planes for the Continent. A Dutch service leaves for Amsterdam. A big machine departs for Cologne. A French air-liner ascends for Paris. Other services are signalled out to Brussels and Lille. The traffic of the airway operates with the precision one is accustomed to at a big London railway terminus. As soon as one aircraft leaves the departure platform, another takes its place.

### Inland Airways

Here, now, is one of the fast expresses of the British inland airways, bound from London up to Glasgow. Then come machines outward-bound for Paris, Zurich, Rotterdam and Budapest. By the Imperial Airways express services one can now reach Budapest for Brindisi in a day's flying.

Passengers outward-bound across the Empire mingle with those who are about to make trips over the Continent. After flying from London across the Channel in one of the big 4-engined airliners, long-distance travellers cross the Mediterranean by flying-boat to Egypt, and then continue on to destinations in Africa, India, Malaya or Australia. Among the scheduled departures are expresses for destinations in Scandinavia as well as in other parts of Europe; while every now and then a specially-chartered plane will leave on an urgent flight.

So the day wears on—big motor-coaches arriving with fresh parties of passengers, and mail-vans dashing up with bags of letters to be air-borne throughout Europe or for thousands of miles across this Empire.

### Night Freighter

Now the air-liners of the outward-bound evening services are departing, and presently, with a drone from its powerful engines, big night freighter is winging its way from Croydon on its flight to Berlin.

All this outward-bound traffic has its counterpart in a stream of inward-flying planes. Early-morning arrivals at Croydon are from cities such as Amsterdam and Brussels. Then comes a big air-liner from Berlin, followed by one from Paris. Now an inland air express reaches Croydon from Glasgow, its passengers effecting connections with services which carry them to destinations on the Continent. From Switzerland, from Swe-

### NINE-MONTHS' OLD BABY FLIES TO AFRICA

Among passengers on an outgoing Imperial Airways service to Africa the other day was Geoffrey Place, the nine months' old baby son of Mrs. E. T. Place. She was flying out to Uganda to join her husband, who is in the Colonial Civil Service.

Prior to the air-liner's departure Imperial Airways obtained, and placed on board for this infant passenger, a supply of baby foods sufficient to last him during his journey out to Entebbe.

den, from Budapest, the big machines fly-gliding down and taxiing up to the arrival platform. Among passengers inward-bound by the Imperial Airways services are those who are completing flights from various points along the Empire routes.

### Speed The Watchword

Airway porters are ready to handle the luggage. Postal vans stand waiting for the mails. Customs and other officials are busily at work. Speed is the watchword of the airway, on the ground as well as in the sky. And soon the motor-coaches are carrying incoming passengers up into the heart of London.

During practically all the hours of the 24 this great Croydon airport is now a scene of well-ordered activity. Apart from the tasks of the traffic staff and of the wireless and meteorological services, there are the duties of the skilled engineers and craftsmen who work in day-and-night shifts in the sheds where the air-liners are housed.

In the reliability of modern air travel much depends on the skill and experience of the air-liner crews, and on the rapid, accurate working of the wireless and weather services; but vital, also, is the work of maintenance and overhaul which goes on in the big sheds, and which ensures that every aircraft, when its turn comes to take the air, is as smoothly-functioning a piece of mechanism as human brains and hands can make it.

## Baby Brown Loves Flying

Among the arrivals at Croydon from Australia the other day was "Baby" Edward Brown, the 20 months-old son of Dr. and Mrs. E. Brown.

This infant is the youngest passenger, so far, to fly over the 12,000 miles' route from Brisbane to London.

Baby Brown made a first aeroplane flight at the age of six months. "He loves flying," says his father.

Baby Brown will cross the Atlantic by steamer to New York. Then he will fly with his parents to San Francisco, returning to Australia by the trans-Pacific sea route.

## STRIKING PROPHECY IN REPORT

### ESSEX COUNTY PLANS FOR FUTURE

#### FAIRLOP PLAIN AS MAJOR TERMINAL

Air taxis to take to the centre of London passengers who have arrived at London airports, are forecast in a report prepared for the Essex County Council on "Air Planning in Essex," and published by the Council at 10s. 6d.

The report, by Messrs. Norman and Dawburn, presents a striking picture of the near future—the county studded with aerodromes of different classes, air ports, flying zones, and radio stations.

"There is little doubt," it says, "that in later years a type of air vehicle will be devised probably with moving wings, capable of carrying passengers into the centre of London. Such craft, will, no doubt, be largely used as taxis to reach the main airports where it will not be difficult to set aside areas where they may land and take off. The possibility must not be ignored in the case of marine airports."

It is thought probable that, in country districts, such air-moving wing aircraft, as typified by the autogiro, will become capable of landing actually inside the built-up areas of towns. Operation to such small landing points would, no doubt, for long, be confined to strictly licensed pilots, but it might lead to an enormous development of short distance flying.

### RADIO WEATHER SERVICE

#### Project For East African Coast

Experts of the Air Ministry and the Marconi Company have been visiting Mombasa recently, discussing with officials the site for a powerful wireless station. This is to be installed in preparation for the commencement, next year, of the Imperial Airways flying-boat route down the East African coast.

In addition to the wireless station, which will have directional and position-finding apparatus working on medium and short wave-lengths, Mombasa is to have a meteorological bureau which will gather data as to upper-air wind strengths and other data of importance from a flying point of view. The Air Ministry and Marconi experts are also visiting Dar-es-Salaam, with a view to providing similar facilities.

### NEW AIR BUREAU AT ZURICH

#### Special Teleprinter In Operation

A new and luxurious air terminus and waiting-room have just been opened by the Swissair Company at Zurich.

At the opening ceremony Mr. Mittelholzer described the efforts Switzerland has been making to assist the development of international air traffic. The results, he said, have been extremely encouraging, particularly on the service between Zurich and London. The new Zurich office is a central organisation for booking seats.

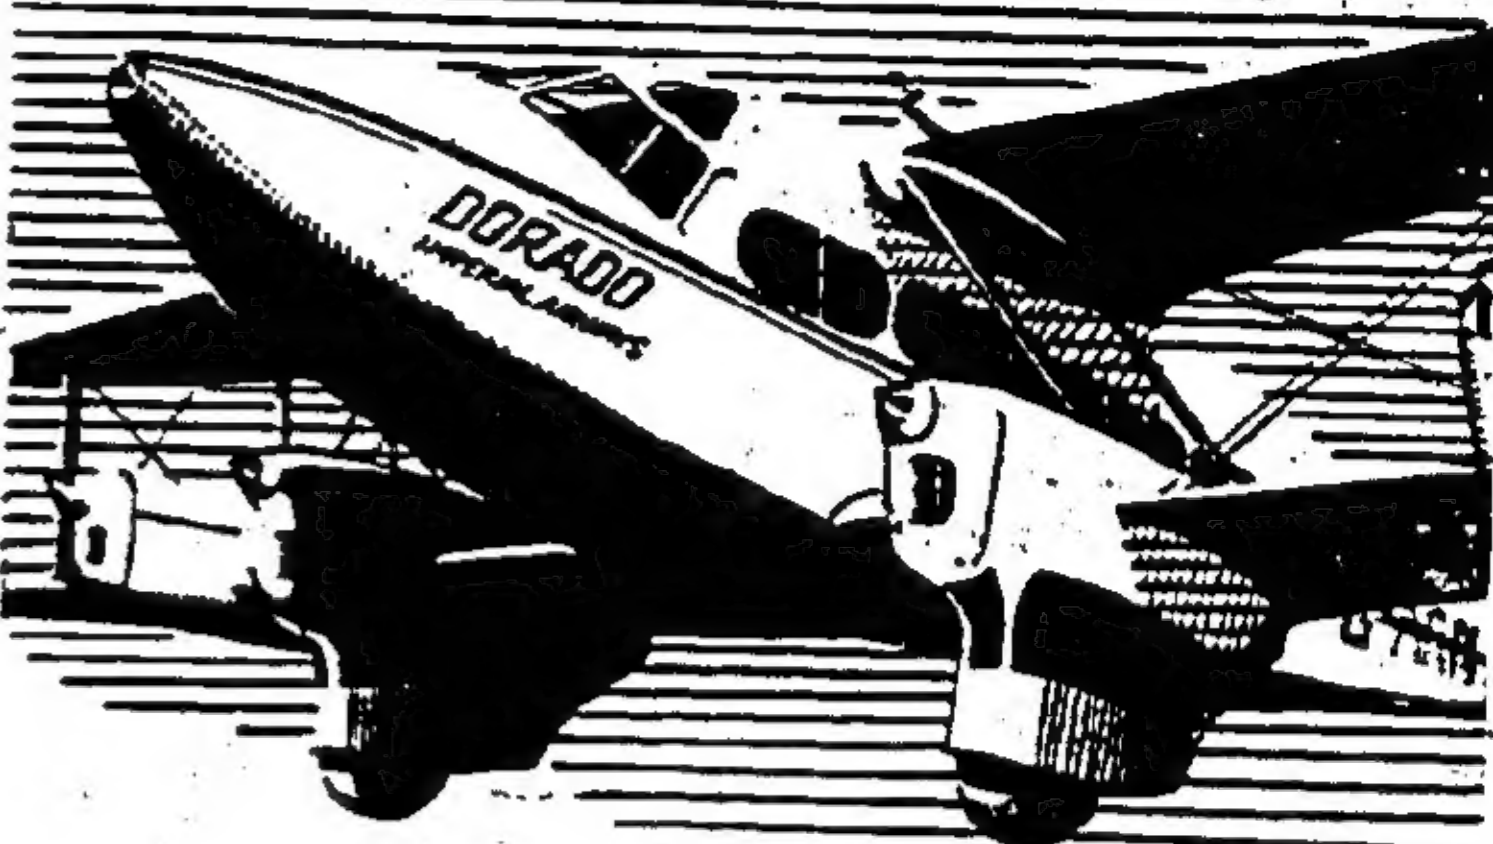

A teleprinter has been installed to avoid any possibility of errors in telephone messages. This teleprinter is in touch with all airports in Switzerland. It is also connected by special devices to all stations in Europe possessing similar instruments.

### ALL-WOOD "FLIVVER"

An all-wood "flivver" plane weighing only 500 pounds exclusive of the motor, recently made a successful test flight in New Hampshire.

## HONG KONG to SINGAPORE

in 2 days by AIR

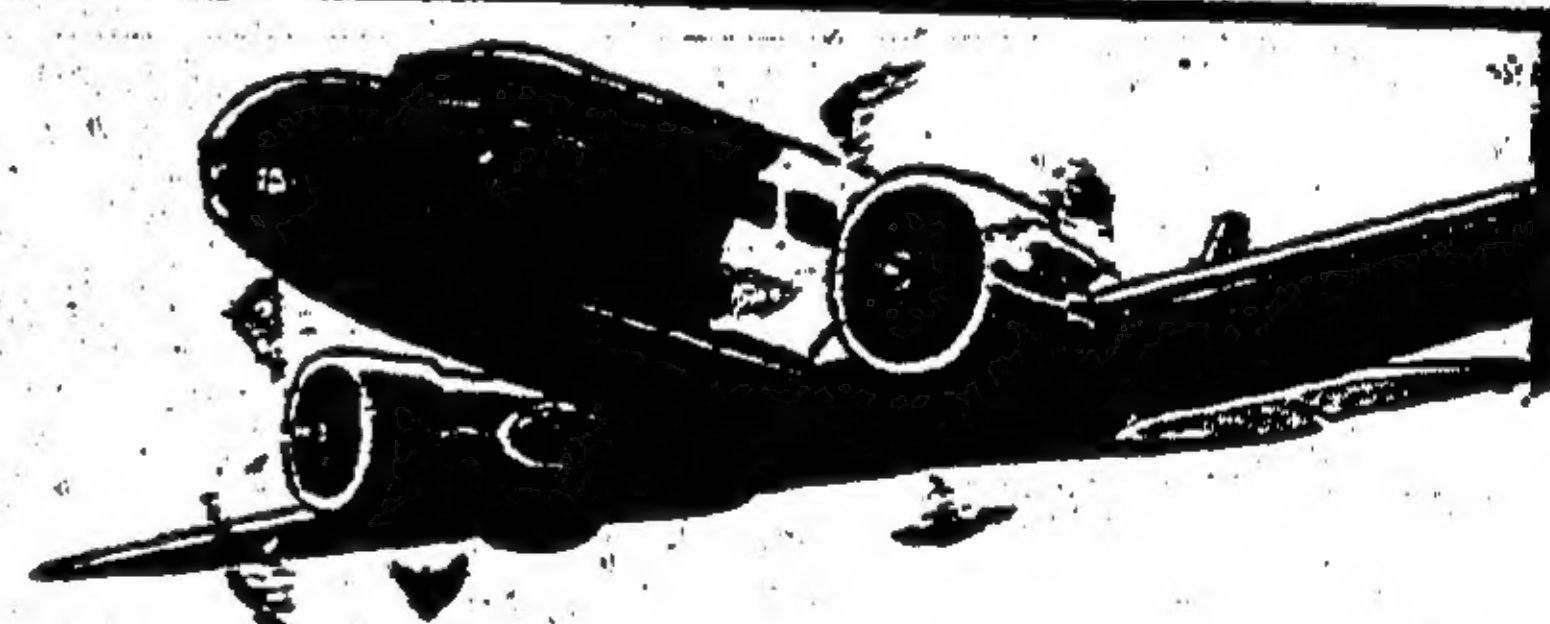

Fast four-engined air liners leave Hong Kong on Fridays, reaching Penang on Saturdays and Singapore on Sundays

At Penang connexion is made with the London-Brisbane route. Now operating twice weekly. This brings Hong Kong to within a few days of England and Australia

Fares: HONG KONG to:  
Penang £30—Singapore £35—Brisbane £87—London £175

## Local Share Market

H.K. Stock Exchange Weekly Report issued at 3.15 p.m. yesterday.

The market, which earlier in the week was dull and inactive, steadier in the middle of the week and is now strong with a fair volume of business being done. Trams have improved from \$9.30 to \$9.45. Cements from \$8.45 to \$8.55 and Hotels from \$4.45 to \$4.55.

The Manila market was inclined to be easy at the beginning of the week but closes somewhat stronger.

SHOREHAM'S "LIDO" PROPOSAL  
The Minister of Health has ordered that a public enquiry be held following widespread protests into the proposal to build a "Lido" on Shoreham beach.

## HAD \$90 BUT DREW RELIEF

Money Found When Arrested As Suspicious Character

Charles Frederick Clark, aged 32, cafe assistant, Rinaldo-street, Balham, was charged at Tower Bridge Court last month with being a suspected person.

Det. Goddard said that Clark had over \$90 on him when arrested. It was found that he saved the money while in work. Since he had lost his employment he had been receiving relief.

Mr. Campion, magistrate, discharged Clark and said he hoped the proper authorities would proceed against him.

## ASTROLOGY—SCIENCE ON SWINDLE?

(Continued from Page 6)

man are co-ordinated all over the world. This is the legitimate harvest that has been garnered from the activities of the astrologers and it is all now utilised in the service of mankind by the astro-nomers.

## Evidence Of Connection

But the Babylonian astrologers, who knew nothing of the true distances of the heavenly bodies from our earth or from one another, who knew nothing of physics or chemistry or the laws of mechanics, could have no true picture in mind of the nature of the dependence of terrestrial events on celestial ones.

Every coincidence between a celestial and terrestrial event was looked upon as evidence of causal connection and these coincidences were multiplied beyond imagination by interested credulity. The eagerness to read human destiny in the stars led mankind on and on into the most fantastic illusions, which they lacked the means to correct.

It was supposed that the soul of every man was a portion of the heavenly fire of which the stars were made. On the birth of a child a soul comes down from heaven to occupy the body. The soul on its passage from sky to earth passes in the neighbourhood of different heavenly bodies and is influenced by them. In the form of this belief with which we are most familiar, the heavenly bodies had already been identified with the anthropomorphic deities of the Greeks.

And, according to elaborate maps of the stars, the positions in the twelve signs of the Zodiac of the sun-god Apollo, and the moon-goddess Diana, of the war-god Mars, or the peaceful Saturn, or the amorous Venus, were observed, and calculations were made of the "influence" they had exerted on the soul that was hastening to its birth.

## Complex Technique

The technique of casting horoscopes was an extraordinarily complex one; few questioned the erroneous supposition of the "sympathy" between men and heaven on which it rested; it incorporated elements of genuine scientific knowledge.

Thus it came about that when honest astrologers went astray they did not suspect their science but only the limitations of their own knowledge and skill, and charlatans abounded who exploited the universal credulity to the advantage of their own pockets. Among the Babylonians astrology had at first occupied itself only with the king and the royal family, and a reminiscence of this aristocratic tradition lingered on in Roman times, as when Calpurnia says to Julius Caesar:

When beggars die there are no comets seen;  
The heavens themselves declare the deaths of princes.  
But the queen of sciences was soon adapted to all purses and all levels of intelligence and a lucrative trade was done by the "Chaldeans" or the "mathematicians" in giving advice on the most trivial details of the humblest lives.

Some Scipios  
Critics, and very capable ones, were not lacking in antiquity. It was pertinently asked, for instance, why twins born under the same stars did not always have identical destinies? Conversely, it was asked how it came about that the thousands killed in one battle, though born under different stars, had all been involved in the same doom.

These difficulties were enough to justify the harder heads among the ancients in their sceptical attitude to astrology.

But we moderns have still better reasons for refusing to submit to the imposition. When science can tell us the distances of the planets, the nature of their physical composition, and the laws of their motion, it is difficult to understand how any educated man can believe that the position of the planet called Venus is likely to affect his chances when he falls in love. Nor is he likely to concern himself with the whereabouts of the planet Mercury when he is engaged on a business deal. And as for an intelligent understanding of the blends of human character and genetics destiny, psychology and genetics will help us with the one, and better statistics with the other, far better than the calendars of the planets.

## QUARRY EXPLOSION

One man was killed and three others injured by an explosion which caused thousands of tons of rock to fall in a quarry at Camden Low, near Leek, Staffordshire, last month.

## TWO CONTINENTS ON THE MOVE

## REMARKABLE DISCOVERY BY SHANGHAI OBSERVATORY

Shanghai. It has also been more or less satisfactorily proved that certain sea animals, and particularly sea urchins, are always plumper at full moon.

The Ministry of Agriculture and Fisheries of Great Britain has provided that the best catches of herring may be expected at full moon, and that the record "hauls" during the second week in October. This it is thought, may be caused either by the attraction of shoals to the surface by the greater amount of moonlight, or by the movement of the water caused by the moon, causing concentrations of the millions of tiny ocean creatures and plants which form the food of herrings and other fish.

Research at the moment is being conducted all over the world in an effort to trace the connection between the moon and the weather, and between the moon and the growth of plants.

Although, due to a shortage in staff, Sincawei Observatory will not be present at the gathering of scientists in northern Japan next month, it will make observations of the partial eclipse which will be visible, weather permitting, in Shanghai, commencing at 10.45 a.m., and photographs will probably be taken for record purposes.

This remarkable fact was first discovered by the astronomers of Sincawei Observatory some ten years ago and it is now the subject of intensive research by the observatories of Nauen, in Germany, and Bordeaux, in France.

Moon's Gravitational Force  
During the months of October and November, 1936, the local astronomers, after carefully checking their records, discovered that the longitude of the world was considerably altered during certain phases of the moon. This was confirmed by a series of observations taken in October and November, 1933, and was communicated to other observatories by radio.

It is thought that possibly the gravitational force of the moon keeps the continents of Europe and Asia in a continual state of movement.

This theory is based partially on a varying time lag noticed in the reception of time signals, and inasmuch as this is often as much as a tenth of a second in the case of the Sincawei observatory, the fathers at German observatory, get their signals from America.

People's Lives Affected?  
At the moment, the observatory is not conducting any further research into the matter, although a resumption of the study of the exceedingly interesting phenomenon will probably be made after the Edinburgh conference in September.

It must be pointed out, however, that the calculations made so far are not totally conclusive, as they are based only on observations made here during the months of October and November—the best months of the year in Shanghai for the study of the heavens—and a series of calculations based on notes taken for at least a whole year will have to be made before the theory is definitely established on a sound footing.

How far this movement of the continents affects the lives of the people on them is not yet known, but discoveries of the enormous influence of the moon on living things is being made continually by scientists in different parts of the world.

Effects Of The Moon  
A Parisian physician, for instance, has collected statistics showing that the largest number of births occur when the moon is near to astrology.

But we moderns have still better reasons for refusing to submit to the imposition. When science can tell us the distances of the planets, the nature of their physical composition, and the laws of their motion, it is difficult to understand how any educated man can believe that the position of the planet called Venus is likely to affect his chances when he falls in love. Nor is he likely to concern himself with the whereabouts of the planet Mercury when he is engaged on a business deal. And as for an intelligent understanding of the blends of human character and genetics destiny, psychology and genetics will help us with the one, and better statistics with the other, far better than the calendars of the planets.

QUARRY EXPLOSION  
One man was killed and three others injured by an explosion which caused thousands of tons of rock to fall in a quarry at Camden Low, near Leek, Staffordshire, last month.

## SCOTCH FAMILIES UNITED

Duncan — Wylie

### WEDDING OF GREAT LOCAL INTEREST

A wedding of great local interest was solemnised yesterday afternoon at the Kowloon Union Church, when Miss Helen Walker Wylie, only daughter of Mr. B. Wylie, General Manager of the South China Morning Post, became the bride of Mr. James Herbert Swan Duncan, thus uniting two well-known Scottish families who have for many years been resident in Hong Kong. The bride has been a member of the staff of the S. C. M. Post for the past three years.

The bridegroom, a member of the staff of the Indo-China Steam Navigation Company, Ltd., is the youngest son of Mr. George Duncan, M.B.E., formerly of the Hong Kong and Whampoa Dock Company, and Mrs. Duncan, who are now residing at "The Nest," Portincapple, Dumfriesshire, Scotland.

#### The Gowns

A fashionable white lace gown, featuring a flower petal collar stitched to stand up, full sleeves shirred in peasant fashion and a shirred Empire waistline, was worn by the bride. An unusual white lace shirred bandeau, worn at an angle, held in place a long, silk-embroidered, tulle veil sent from Edinburgh for the ceremony. The bride's little orange blossom and white heather posy, trimmed with fluted lace, was tied with Gunn tartan ribbon. She was given away in marriage by her father.

Miss Isobel Holland, as bridesmaid, wore a slim-fitting pink lace and net dress, set off with a stiffened pink lace hat. Her bouquet was of pink and white gladioli. The flower-girl, little Peggy Duncan, the bridegroom's niece, was dressed in a short, frilly, pink net dress and carried a posy of pink and white gladioli.

The bride's mother chose a smart, ankle-length gray lace afternoon dress with matching coat and cherry red hat. She carried red gladioli.

The dresses were by Mme. D'Oby.

#### The Ceremony

The bridegroom was attended by his brother, Mr. Andrew Duncan. Mrs. Frank Short was at the organ.

During the ceremony, which was conducted by the Rev. J. D. MacLean, the congregation joined in singing "O God of Bethel" and "O Perfect Love."

A reception was held in the Rose Room of the Peninsula Hotel, where the bride's father and mother received the guests.

Mr. Alfred Hicks, Editor of the Hong Kong Telegraph, proposed the health of the bride and bridegroom. Later, the newly-wed couple left for the honeymoon at Repulse Bay. On leaving, Mrs. Duncan wore a navy and white sailor-styled dress under a three-quarter-length coat, together with a small navy-and-white straw hat and white accessories.

## GEN. VOELTER IN COLONY

### Returning Visit Of Chinese Friends

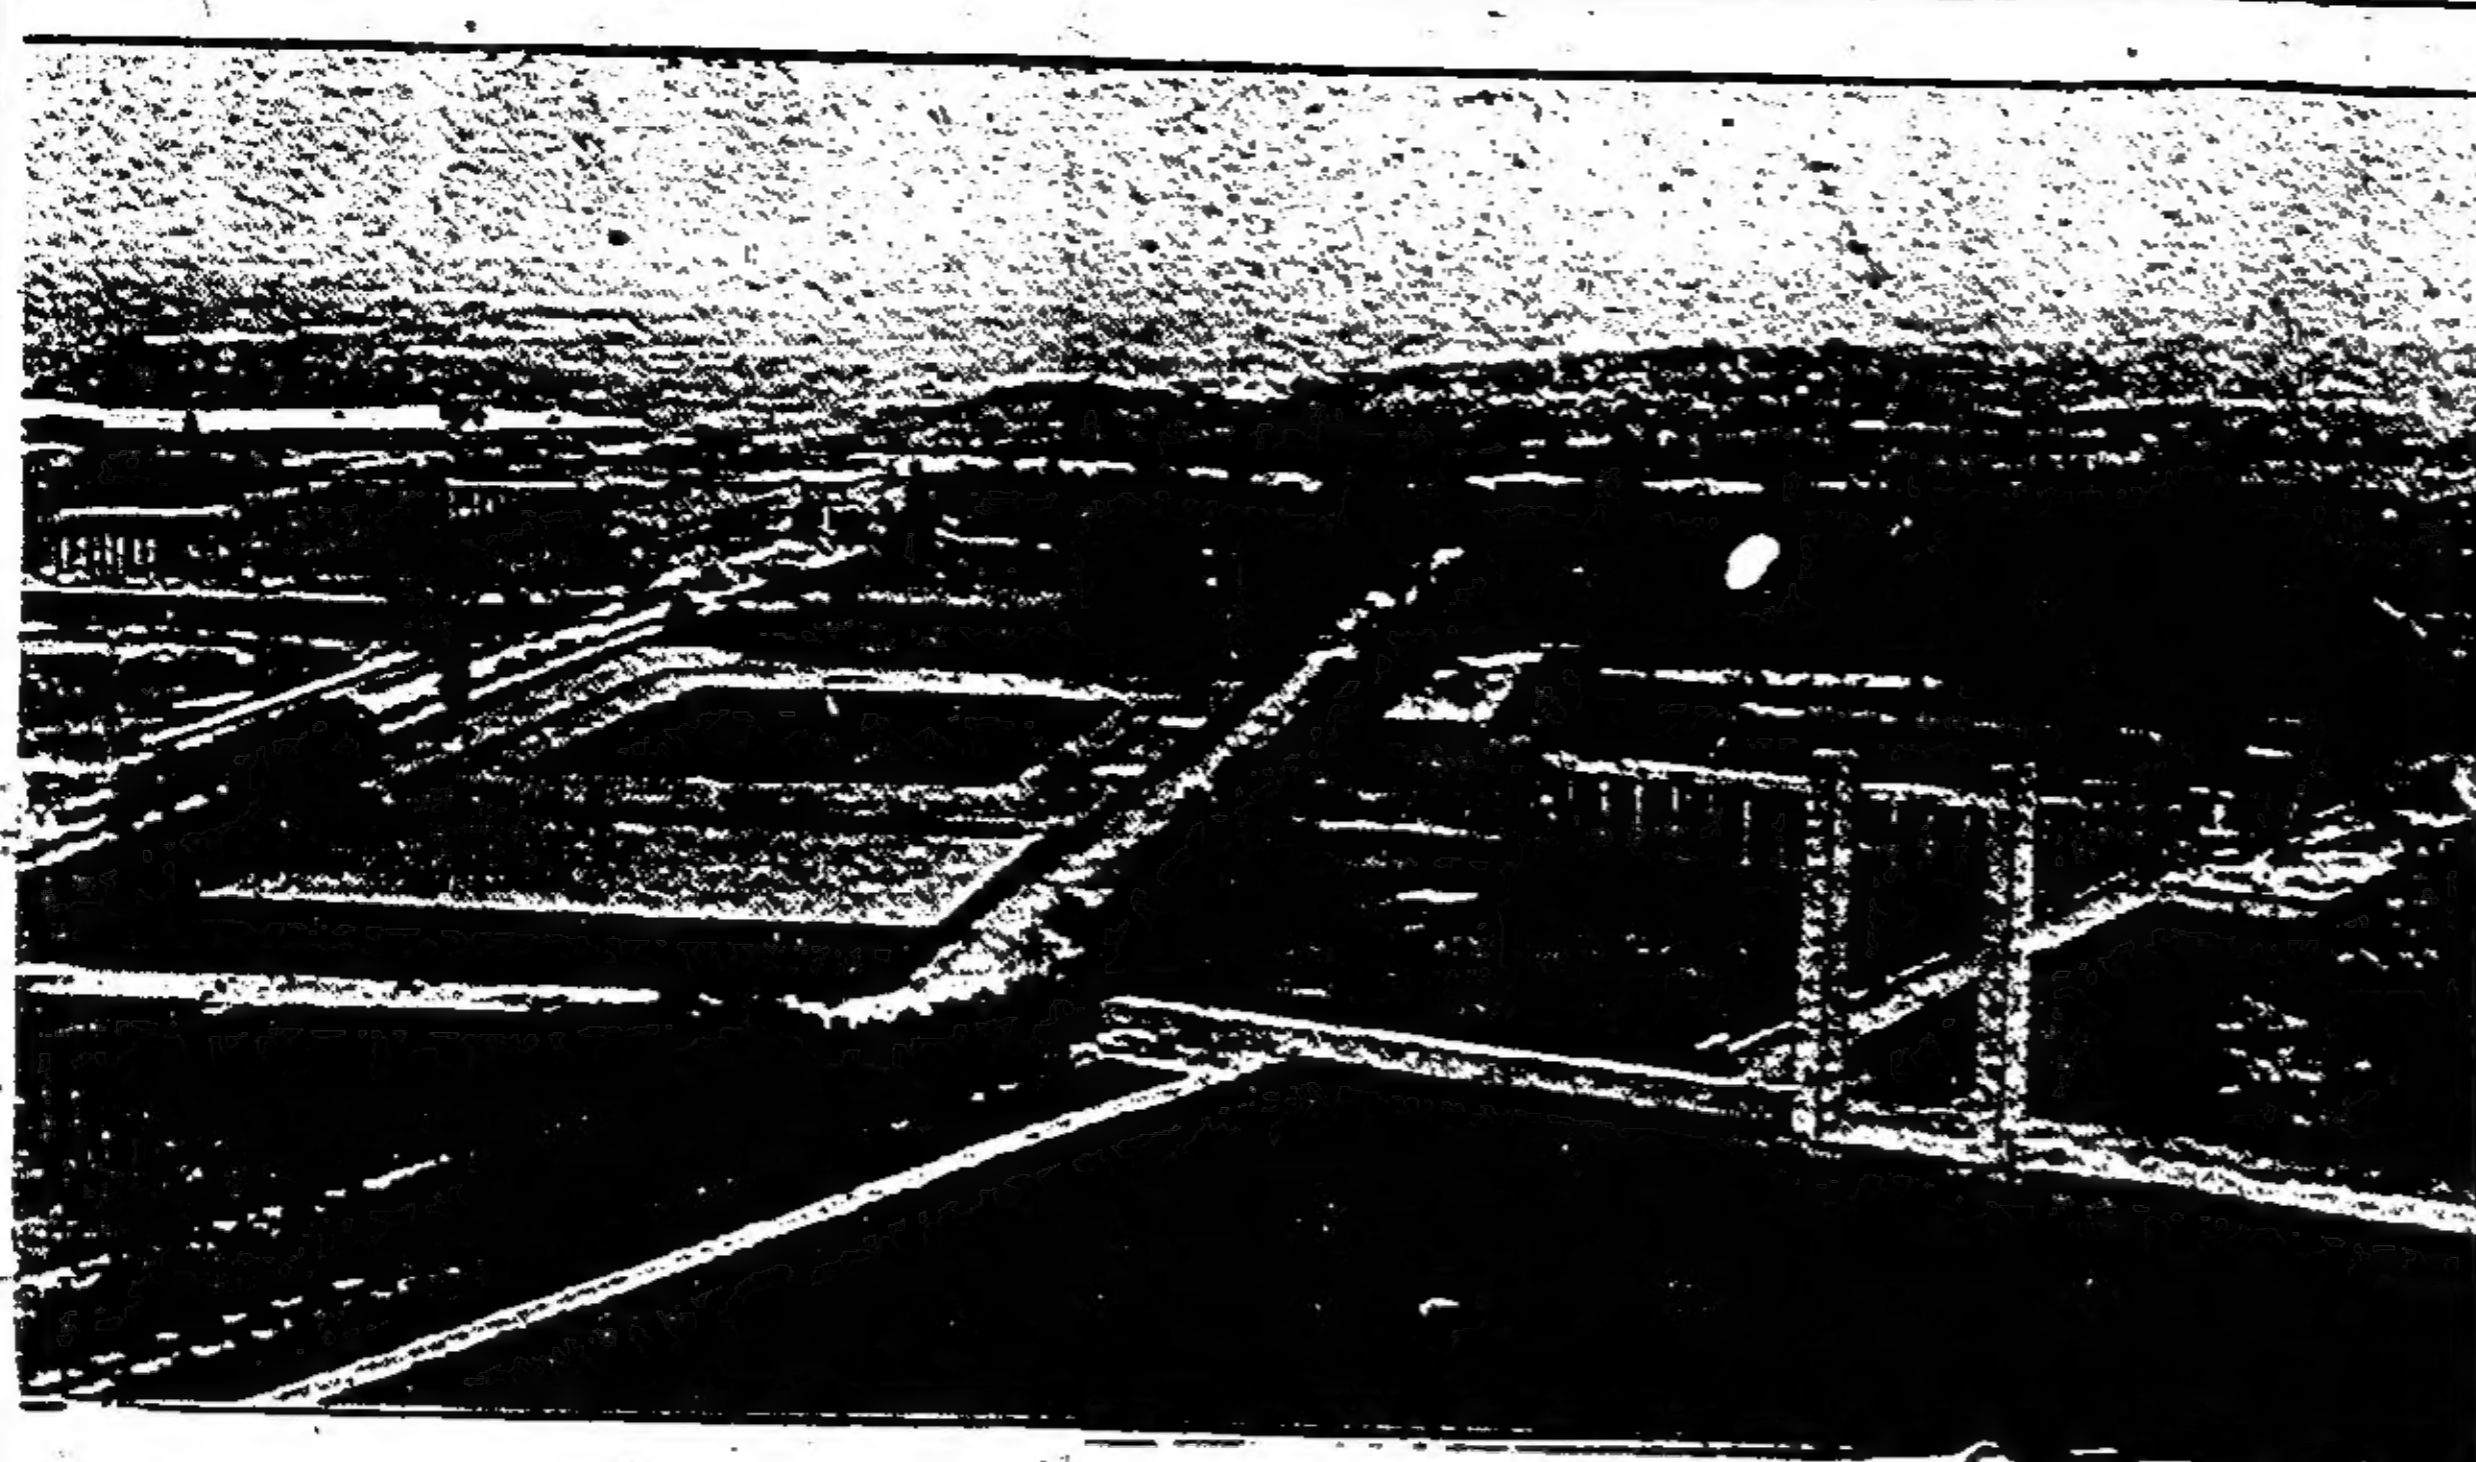

Among the passengers passing through the Colony bound for Shanghai by the s.s. Conte Verde is General Walter Reichenau, of the German Army, and Captain Helmut Voelter and Captain Friedrich Busse, who are accompanying the General.

Interviewed on board, General Reichenau stated that he was returning the visit of some Chinese friends paid to Berlin some time ago, but would not say if his visit North was in an advisory capacity or not.

He stated that as he was on leave at the moment, he had taken advantage of the opportunity of returning the visit.

### BULLOCK'S BID FOR LIBERTY

A bullock which escaped from a butcher's premises at Upper Holloway, N., last month, ran through the streets for nearly half a mile before it was recaptured.

This photograph, taken from the 76-metre high bell-tower at the Olympic Games stadium in Berlin, gives an impressive view of the sports field, which is nearing completion in anticipation of the August meeting.

## CHRISTIAN SCIENCE LESSON SERMON

### Atomic Force In The Universe

#### FIRST CHURCH OF CHRIST SCIENTIST, HONG KONG

The subject of the lesson Sermon in all churches of Christ, Scientist, to-morrow, June 21, will be: "Is the Universe, including man, evolved by Atomic Force?"

The Golden Text will be: "The Lord by wisdom hath founded the earth; by understanding hath he established the heavens." (Proverbs 3:19).

Among others, the following citations from the Bible will be read: "And I saw a new heaven and new earth: for the first heaven and the first earth were passed away; and there was no more sea." "And I heard a great voice out of heaven saying, Behold, the tabernacle of God is with men, and he will dwell with them, and they shall be his people, and God himself shall be with them, and be their God. And he that sat upon the throne said, Behold, I make all things new. And he said unto me, Write: for these words are true and faithful. And he said unto me, it is done. I am Alpha and Omega, the beginning and the end." (Rev. 21: 1, 3, 5, 6).

#### Stages Of Consciousness

The Lesson Sermon will also include the following passages from the Christian Science textbook, "Science and Health, with Key to the Scripture," by Mary Baker Eddy: "In the Apocalypse it is written: 'And I saw a new heaven and a new earth: for the first heaven and the first earth were passed away; and there was no more sea.' In St. John's vision, heaven and earth stand for spiritual ideas, and the sea, as a symbol of tempest-tossed human concepts advancing and receding, is represented as having passed away."

"Were this new heaven and new earth terrestrial or celestial, material or spiritual? They could not be the former, for the human sense of space is unable to grasp such a view. The Revelator was on our plane of existence, while yet beholding what the eye cannot see—that which is invisible—to the uninspired thought. This testimony of Holy Writ sustains the fact in Science, that the heavens and earth to one human consciousness, that consciousness which God bestows, are spiritual, while to another, the unilluminated human mind, the vision is material. This shows unmistakably that what the human mind terms matter and spirit indicates states and stages of consciousness." (Page 536 and 572).

## DEATH OF MARINE OFFICER

Mr. J. K. Manners

CHIEF OFFICER OF WEST RIVER STEAMER

Mr. John Kenneth Manners, Chief Officer of the steamer Toishan, running between the Colony and West River ports, was taken ill on Thursday and died at Wanchow. He was aged 55.

(Continued in Next Column)

## LOCAL NEWS BREVITIES

### DEAD WOMAN IN HUT

Man's Alleged Answer To Murder Charge

Wallace Jenden, aged 58, a slaughterman of Stubbs Mead allotments, Wandie Park, was at Croydon last month remanded for eight days charged with the murder of Alice Whyte, of Cuthbert-road, Croydon.

Det.-Insp. Widdocks stated that the woman's body was found in a hut at Stubbs Mead allotments. When he told Jenden he would be charged with murder by cutting her throat he replied, "No, not that way."

When charged he said, "A nice birthday to-day. That is not her name. Can I have paper and pen?" Later he said, "All I can say is I know nothing about it. I cannot understand it."

## MORE PROTESTS IN CANTON

Consul Deals With Military Chiefs

MUNICIPAL GOVERNMENT IGNORED

(From Our Own Correspondent)

Canton, Yesterday. Another protest against the anti-Japanese movement in South China will be lodged this afternoon or to-morrow by Mr. Tatsuo Kawai, Japanese Consul-General, to the military authorities here.

Consul-General Kawai created a new precedent by protesting to General Chen Chi-tong, Commander-in-Chief of the First Group, Anti-Japanese National Salvation Army, when as a rule a Consul communicates with the Canton Municipal Government. Mr. Kawai believes that it is more effective to deal direct with the military authorities.

A spokesman of the Japanese Consulate-General in Shanghai denied this morning that all the senior officials of the Consulate were ill, as incorrectly reported by a news agency, report. The agency man called at the Consulate when the senior officials happened to be very busy.

It is understood that the protest is more or less diplomatic, as Japanese Consular officials are bound to protest against any anti-Japanese movement. Japanese nationals in Canton go about their business as usual, and untoward incidents are not believed likely for the time being.

The question whether Japanese merchants are liable to pay special tax has not been settled, and no attempt is made to force the issue.

Two cases of diphtheria and three of enteric fever were reported to the local Health authorities in the 24 hours ended on Thursday.

(Continued from Previous Col.)

The body was removed to the Victoria Mortuary on the arrival of the steamer yesterday.

The late Mr. Manners was formerly in the Royal Navy, and served in the Great War. The cause of his death is not as yet known.

A house in Mongkok, No. 204, Portland Street, occupied by the On Hing Machine Shop, was gutted by a fire which broke out in the early hours of yesterday morning. Damage was also caused to the top floors of No. 202 and 206. The premises was not insured.

There will be no Dinner Dance at the Repulse Bay Hotel to-day, but the usual Tea Dance will be held to-morrow at 5 p.m.

The name of Dr. Chau Woon-nin has been added to the list of those qualified to practise medicine in the Colony.

The Rev. F. Short will speak at the Religious Discussion Group on "The Community and The State," at 9 p.m. to-morrow in the West Lounge of the European Y.M.C.A.

Lady Caldecott has kindly consented to present the prizes at the Hong Kong Volunteer Defence Corps annual swimming sports on July 11. Music by "The Troubadours" Dance Orchestra will be provided afterwards for dancing.

The next meeting for meditation and discussion conducted by Dr. Reichelt at the Tao Fong Shan Chapel, Bishop's House, Hong Kong, will be held at 6 p.m. on Wednesday next. The subject will be the Gospel of St. John. There will be no more meetings until September.

A young Chinese named Wong Ah-chai, a British subject born in the Straits Settlements, who has been touring the world by bicycle, has arrived in Hong Kong. Setting out from Malacca, his home, eight years ago he has visited nearly every country of Europe, Asia and Africa.

The Wah Yan Past Students' Association is holding a launch picnic to Cheung Chau Island this afternoon, the launch leaving Queen's Pier at 2.15 p.m. sharp. A programme of swimming events, open to members and non-members, will take place on arrival at the destination. Successful competitors in each event will be given souvenirs.

## Home Cricket Score Board

At Southampton, Leicestershire took Glamorgan: 284 (Smart 121, Dai first innings points from Hampshire. Leicestershire: 379 for 6 dec. (Dempster 142, not out) and 22 for 2. Hampshire: 233 and 33 for 2.

At Northampton, Middlesex took first innings points from Northants. Northants: 298 (Bakewell 144) and 141 for 8. Middlesex: 464 (Hendren 145, Compton 100, not out).

At Westcliff, Yorkshire beat Essex by 137 runs. Yorkshire: 125 (Nichols 5 for 41) and 327. Essex: 188 (Verity 6 for 52) and 127 (Verity 9 for 48).

At Gloucester, Worcester beat Gloucester by eight wickets. Gloucester: 88 (Perks 8 for 43) and 182 (Jackson 5 for 49). Worcester: 237 and 34 for 2.

At Lord's, All-India beat the Minor Counties by an innings and 74 runs. Minor Counties: 236 (Amar Singh 4 for 52) and 42 (Amar Singh 5 for 12, Nissar 5 for 24). All-India: 402 (Mushtaq Ali 135, Merchant 26).

At Cardiff, Glamorgan beat Lancashire on the first innings.

## LORD ALLEN AND LABOUR

### Disagreement Over League Of Nations

"EVERY SUPPORT" FOR MR. EDEN

Lord Allen of Hurtwood has decided to resign from Mr. Ramsay MacDonald's National Labour Group owing to "complete disagreement" over League policy.

This division, which was made known in correspondence that has passed between him and the National Labour Committee, is the result of an article which appeared in the News-Letter, the group's organ.

Lord Allen, in a letter dated May 12, wrote:

"I find myself in such complete disagreement with the attitude of the National Labour Group towards the League of Nations that I should prefer my membership to lapse."

The eve of Mr. Eden's departure for the council meeting at Geneva is surely the worst possible occasion for saying: 'let us admit that Italy has smashed the Covenant.' (A reference to editorial comment which appears in the current issue of the News-Letter.) The lesson of the recent tragedy is not that we should make any such admission, or weaken in our loyalty to the existing Covenant. Quite the contrary.

#### Statesmen's Failure

"This humiliation has not been brought upon us by defects in the League Covenant, though undoubtedly improvements could be devised. It has resulted from the failure of statesmen to take action at the right moment and to protect international law under the Covenant with the same precision and will-power that we display when our own national interests are at stake. Indeed, we can no longer divorce the safety of Britain from the defence of international law."

"The opportunity to prevent the present avoidable disaster was, I fear, let slip when National Labour and National Liberalism were in the ascendancy in the conduct of foreign affairs, and I have never disguised this opinion."

#### Fidelity Important

"As for the future, it is not merely in Abyssinia but every bit as much in Europe that fidelity to the League Covenant will be of paramount importance. It seems to me that every support should be given to Mr. Eden and the Government in their present effort to reconcile Germany and France so that at long last the peace of Europe may be founded upon equality and protected by collective security, as was intended by the Covenant."

"Forgive me if I say that I feel that the policy of National Labour is hindering the achievement of world peace at a most critical moment."

Earl de la Warr, chairman of the National Labour Committee, in his reply stated:

"As realists we have to recognise that the Covenant needs revision in the light of experience. This does not mean that we can no longer support the League. On the contrary, it means that we care for it sufficiently to be determined that its machinery shall be such as will work."

I got KLIM first for baby—  
now it is the family milk supply!

THAT is how many families first become acquainted with Klim Powdered Whole Milk—the finest cows milk with only the water removed.

Many doctors recommend Klim for babies because powdering makes it more digestible. Because it is pure—and always fresh. Klim keeps, without refrigeration.

For family use, it is the most convenient and reliable milk supply in the world. To obtain liquid milk with all the good natural flavour and all the rich nourishment—simply add water to Klim.

TRY KLIM TO-DAY.

## for STAMP COLLECTORS

By A. E. L.

THE announcement that a new denomination of 1½d. is to be added to the list of Union postage stamps does not cause surprise, having regard to the statements which have been made to the effect that from next year it is intended that all overseas letters are to be carried by air mail, the charge per unit of weight being 1½d.

Designs for the new stamps have been called for from South African artists, so that details of the chosen design are likely to be given within the next few months. The step to be taken whereby all mail matter will be carried by air, is an episode in the postal history of the world, no less important than the introduction of the adhesive postage stamp by Rowland Hill nearly 100 years ago.

Nigerian Pictorials  
THE new pictorial issue of Nigeria is proving very popular, and will no doubt result in increasing interest in the stamps of this Colony. The Postmaster General's Department at Lagos has advised that all stocks of the old type have been withdrawn, and cannot in any circumstances be supplied or re-issued. Only the pictorials are now on sale, and no early change is contemplated, although of course a change in portrait will be necessary in some future printing, good notice of which will no doubt be given.

### No Canadian Changes

RUMOURS of changes in the current pictorial set of Canada which were put on sale last June, have been set at rest by an official announcement by the Post Office Department at Ottawa that no changes are contemplated at present. Incidentally it may not be generally known that there is a Philatelic branch of the Canadian Post Office, from which many of the obsolete stamps can still be obtained, including the Jubilee issue. This practice must necessarily keep down the value of most of the recent issues of Canada in so far as mint copies are concerned.

### N. Z. Anzac Issue

THE design of the New Zealand Anzac stamp shows a portrait of a private of the New Zealand Permanent Force, from Trentham Camp, equipped and accoutred, down to the felt hat with four dents, peculiar to New Zealanders. When the soldier had been photographed, a perspective background of Anzac Cove was used to complete the picture. There are two denominations, ½d. green and 1d. red, sold at double face value, the difference being for the benefit of the New Zealand Returned Soldiers' Association.

### "Summer" Charity Stamps

A SERIES of "Summer" Charity stamps is to appear in Holland in May, and remain current during May and June. The set will consist of four stamps the design of which will include portraits of Dutch notabilities, that is, Desiderius Erasmus 1465-1536 (1½+1½ cents), Prof. Dr. H. K. Oomes, 1853-1926, (5+3 cents), Dr. H. J. M. Schaepman, 1844-1903 (6+4 cents), and Pieter B. S. Talma, 1864-1916 (12½+3½ cents).

### New Surinam Set

A COMPLETE new series of stamps comprising sixteen denominations were taken into issue in Surinam on March 1, the values from ½ cent to 7½ cents being off-set printed in a design by Andre van der Vossen, representing a sixteenth-century ship on a solid background. The higher values are recess-printed in larger format with a present day portrait of Queen Wilhelmina, facing to the left, by the artist F. Mees.

### Silver Jubilee

INTEREST in the Silver Jubilee issues is still very keen. The prices of some of the colonies have risen to unexpected levels. I believe it is a good thing to possess a check list of the stamps issued, so from to-day on I shall

publish every week the information available regarding Silver Jubilee issues until the check list is completed.

Great Britain  
Issued May 7, 1935, withdrawn July 7, 1935. Wmk. Crown G. R. Perf. 15 X 14.

Printed by Harrisons and Sons, Ltd., in sheets of 120. Designed by Mr. Barnett Freedman.

### SELF-ACCUSED BIGAMIST

Love "Part Of His Existence"

A man charged with bigamy at Amersham, Bucks, last month, was said to have given himself up to the police. A full signed statement, which he was alleged to have made, declared that love for the woman he, bigamously married had become "an integral part of his existence."

The accused man, who was committed for trial, was Reginald C. S. Perry, a civil engineer, of East Molesey. He was charged with marrying Carola E. Flawson (formerly Allen-Thorsander) while his legal wife was alive. Bail was allowed.

### REPUTATION OF CONFESSION

#### Bathroom Murder Case Defence

New York.

The trial of John Fiorenza, an upholsterer's apprentice, who is 24, for the murder of Mrs. Nancy Evans Titterton, wife of an Englishman, was resumed here last month. Mrs. Titterton's body was found in the bath of her flat on April 10.

The prisoner's counsel, Mr. Klausner, in his opening statement, said that Fiorenza, owing to the deterioration of mind and brain, had admitted a crime of which he was innocent.

In his alleged confession Fiorenza admitted going to Mrs. Titterton's flat, gaining admission by a trick, and murdering her. According to the police, Fiorenza had bound Mrs. Titterton's hands with twine, and although he cut it before leaving, one piece was found under the body and provided a clue which led to his arrest.

of "Centimes" in pair with normal.

(Cylinder numbers, 14, 22).

1½d., brown.

(Cylinder numbers, 21, 48).

The total number issued for all zones, 1,250,000 stamps.

### Australia

Issued May 2, 1935. Wmk. Crown over C. of A. Perf. 11½.

The Australian Jubilee stamps were recess-printed on chalk-surfaced paper by John Ash of Melbourne. On the bottom margin of each pane is the two line imprint "John Ash, Australian Note and Stamp Printer." The plate number appears on the corner of each pane. The design which shows King George mounted on his charger "Anzac" was taken from a Daily Mirror photograph.

2d., red.

(Plate numbers, 1, 2, 3, 4, 5, 6).

3d., blue.

(Plate number, 1).

2s., violet.

(Plate number, 1).

### Children's Hymns To Hitler

The real danger to Germany is the spread of the German Faith Movement. This is the conclusion reached by the Church of England Council on Foreign Relations, after a survey of the German Evangelical Church—the official Church of Nazi Germany.

Classes for children under 14 have been organized in Berlin and other places by the movement. Teaching is illustrated by the following grace, which is sung at the National Socialist soup kitchen for children at Koln:

Before meat:  
Fuehrer, my Fuehrer, given me by God,  
Guard and preserve my life for long days come.

You have rescued Germany from direct need:  
I thank you to-day for my daily bread.

Stay with me, forsake me not,  
Fuehrer, my Fuehrer, my faith and my light—Hail my Fuehrer!

After meat:  
Thanks to you for this food,  
Guardian of Youth, guardian of the old!

### Hosted Searched

The survey also describes a visit by the secret police to a hostel for young women training for Church youth work.

"The house," it says, "was searched from dustbins to attics, the private letters of the young students were opened, and their cupboards ransacked. Foreign newspapers found in the offices were confiscated. The young women students were collected in the hall and were asked if they really believed in the nonsense found in the Bible."

"At the same time the special Confessional theological courses were prohibited. All Confessional Church lectures were forbidden."

### LIKES OF AGED WIDOW

Merchant Accused Of Fraud

### ALLEGED USE OF LORD FINLAY'S NAME

Mrs. Hamilton Fletcher, a widow of 81, who had already been in the witness-box seven hours, was further cross-examined at West London police court last month.

Albert Halliday, aged 55, a merchant, of Queen's Gate, Kensington, was charged with obtaining goods worth £14 13s. from Kensington tradespeople, and stealing and receiving furs valued at £150 belonging to Mrs. Fletcher.

It had been alleged that Mrs. Fletcher had been kept "captive" in a basement room, but at the last hearing Mrs. Fletcher said she frequently went into Kensington Gardens.

Mr. F. J. Eastwood, defending, asked: "You are a lady who knows what she likes?"

"I think so," answered Mrs. Fletcher.

You are a lady who is particular?—Yes.

And if you do not like some things you are not afraid to say so?—No.

## CHANNEL BUOYS

WHAT would modern navigation do without the channel buoys—those floating markers that keep ships off the shoals? In a very real sense, the advertisements in this paper are channel buoys, placed for your protection—for the safeguarding of the family expenditures.

These advertisements are the signed statements of reputable firms who seek your patronage on the single basis of giving value for every dollar spent. They are honest statements, the only kind an advertiser can use and remain an advertiser.

People who get the most for their dollar in the market-places are those who keep an eye on the channel buoys. Day by day, they follow the advertisements to learn what and where to buy to the best advantage. Make this a habit. Study the advertisements, in the interest of shrewder buying.

The advertisers in this paper have charted the channels of buying for you. Keep to the course.

## MAXIM GORKI CREMATED

State Funeral At The Kremlin

"CHINA MAIL" SPECIAL  
Moscow, To-day.  
The mortal remains of the famous Russian writer Maxim Gorki, who died here on Thursday, were cremated in Moscow Crematory yesterday. The urn containing Gorki's ashes will be interred in the wall of the Kremlin at the Red Square to-day with an impressive ceremony, which will have the character of a State funeral. A monument will be erected at Nishi Novgorod, where the deceased author was born and which was renamed some years ago "Gorki."—Trans-Ocean Service.

## FRANCE TO DEFEND HER CURRENCY

(Continued from Page 1.)

FEARS DISPELLED  
Paris: The fears that the new French Government would pursue a vigorous devaluation policy and even introduce a capital levy were dispelled by the Finance Minister's eagerly awaited speech in the Chamber yesterday afternoon. M. Vincent Auriol, Minister of Finance, declared that the Government was determined to protect the currency at all costs, and announced that very sharp measures would be taken against all who had smuggled large sums out of the country. These people, he said, were nothing better than traitors.

Referring to the Communist motion for a capital levy, the speaker said it was true that the Socialists themselves once had demanded a capital levy, but that it had been in time of prosperity. To-day the levy would be the deathblow to the capital market, which was already in a sad state. Declaring that the advocates of devaluation were merely actuated by selfish motives, the Finance Minister said that such a course would be dangerous to the interests of the nation unless other nations also adjusted their currency. Only one course was possible, and that was for the nation to save the currency itself.

CAPITAL SENT ABROAD  
The total capital which Frenchmen had sent abroad since January 1935 was estimated at 26,000,000,000, while the amount of hoarded banknotes was probably in the neighbourhood of 30,000,000,000 francs. Altogether, therefore, including the hoarded gold, French economy was deprived of no less than 60,000,000,000 francs. Anybody who did not report the sums he had abroad by July 15 would have to expect severe punishment, and eventually deprivation of his civil rights. Criticising the secret and dubious financial methods pursued by the previous Governments, the speaker said that an end would be put to these practices and in future frank statements of the financial situation of the country would regularly be published.

NEW MEASURES  
On the conclusion of his speech the Minister introduced new financial measures for the purpose of achieving the objects he had set forth, the chief of these being:

1. A bill increasing the severity of punishment for failing to reveal credits abroad, while granting tax amnesty.
2. A bill empowering the Finance Minister to take sharp measures against persons attempting to damage the national credit.
3. A bill enabling the Government to issue decrees with the object of securing adequate representation of all national economic interests in the Banque de France.
4. A bill empowering the Government to reorganise public finance, with the object of making it simpler and more elastic.—Trans-Ocean Service.

## CLYDE TO BE DEEPENED

The Clyde Navigation Trust has decided to carry on extensive dredging of the river between Shieldhall and Port Glasgow.

## DEATH

TOLLAN.—On Saturday morning, 20th June, 1936, at the War Memorial Nursing Home, Mrs. D. TOLLAN, wife of Mr. D. TOLLAN, after a short illness.

## U.S. BASEBALL RESULTS

CARDINALS BEAT GIANTS

SENATORS BOW TO INDIANS

New York, To-day.  
The following were the results of the League baseball matches played yesterday:

National League  
Cincinnati ..... R. H. E.  
Kampouris and Schoot ..... 8 14 0  
bardi homered.  
Boston ..... 4 7 2

St. Louis ..... 7 10 0  
S. Martin and Medwick hit homers.

New York ..... 5 10 0  
Whitehead hit a home run.

The game between Chicago and Brooklyn was postponed on account of threatening weather, while the Pittsburgh v Philadelphia encounter was called off on account of rain.

Washington ..... 6 12 1  
Cleveland ..... 9 13 2

Philadelphia ..... 4 8 1  
Chicago ..... 5 11 1

New York ..... 5 12 1  
Selkirk hit a home run.

Detroit ..... 2 8 1  
No other games were scheduled.—Reuter.

## SEA ADVENTURE ENDED

(Continued from Page 1.)

As a result of a midnight conference by the authorities, the Pomeroon put out at dawn with a party of nine policemen, commanded by Captain Murland, the Acting Deputy Inspector General of Police. Her instructions were to seize the suspect. No journalists were allowed aboard.

GRIM CHASE  
As the Pomeroon approached, the Girl Pat, with diesel working, and sails up, started to run away, and the Pomeroon hotly pursued her in the glassy sea.

Spectators from the shore now saw the Girl Pat outmanoeuvring the Pomeroon and gaining ground, until they were seven miles west of the Girl Pat's original anchorage. The Pomeroon was faster, but as she came up the Girl Pat would make a complete circle and head west, forcing the Pomeroon to make a wider circle and so lose ground in order to recover her chasing position.

The ding-dong race continued for 30 minutes, but at last the Pomeroon got close up in a vanishing position, slightly astern on the port-quarter. What happened next could not be seen from the beach, but it was perceived that the Pomeroon was towing the Girl Pat into Georgetown, where they were expected shortly.

## FINANCES OF THE COLONY

The financial statement of the Colony, for the month of March, shows a favourable balance of \$12,897,243.46. Revenue during the month amounted to \$2,436,310.72, and expenditure to \$2,541,960.59, the excess of assets over liabilities at February 29, amounting to \$13,002,893.33, being brought forward.

## WEATHER FORECAST

Fair weather, with moderate south-west winds, is the weather forecast for to-day, as issued by the Royal Observatory this morning.

## CLOCK TOWER TO BE MOVED

Southwark Borough Council have decided to remove the clock tower at St. George's Circus to another site because it is considered an obstruction to traffic.

## WOODEN SCHOOL BURNED

Fire last month destroyed a temporary wooden structure at Birmingham, used by pupils of King Edward's School pending the erection of a new building.

## HARVARD BEAT YALE

Annual Boat Race At New London

New London, Conn., To-day.  
Harvard beat Yale by four lengths in the annual boat race here yesterday, clocking 20 minutes 19 seconds over the four-mile course.—Reuter.

This is Harvard's first success since 1933, for Yale beat them in the following year to break their sequence of wins over three years in succession. Yale won again in 1935, when they took 20 mins. 19 secs. over the course as against 21 mins. 04 secs. recorded by Harvard.

The first race was held on June 30, 1876 when Yale was successful and since then they have won 34 times against Harvard's 23, including their latest success.

## FRANCE SUPPORTS BRITAIN

(Continued from Page 1.)

enmity will be felt or reprisals taken against anyone.

EFFECTS IN AMERICA  
Washington: It is understood that the financial and arms embargoes against Italy and Ethiopia will not be affected by any decision of the League of Nations to remove sanctions. President Roosevelt has repeatedly emphasised that the embargoes are not in any way connected with the League, and he was represented yesterday by close advisers as not desiring to terminate them until an independent enquiry shows that hostilities have definitely ceased throughout Abyssinia.—Reuter.

## NEW STAMP ISSUE IN GERMANY

Berlin, To-day.—Philatelists will be interested to hear that a special series of stamps will be issued by the German postal authorities in connection with the World Congress of Leisure Time and Recreation, which has been convoked by the National Socialist Organisation "Strength through Joy," scheduled to take place in Hamburg from July 23 to 30.—Trans-Ocean Service.

## ALL OPEN AND ABOVE BOARD

(Continued from Page 1.)

Dr. Schacht said it was perfectly natural that in his conversations with leading men he had spoken of various economic and financial matters, but he had neither the intention of flying to Ankara to make an offer for the fortification of the Dardanelles, as one French paper had asserted, nor had he any other mysterious political mission.

Dr. Schacht left Budapest yesterday by air for Berlin.—Trans-Ocean Service.

## Government Appointments

The following Government appointments, etc., are notified in the Government Gazette:—  
Sir Alasdair Duncan Atholl MacGregor, Kt., K.C., resumed duty as Chief Justice of the Supreme Court of Hong Kong on June 19.  
Mr. James Joseph Hayden resumed duty as Puisne Judge of the Supreme Court of Hong Kong on June 19.  
Mr. Ernest Hillas Williams resumed duty as Assistant Attorney-General on June 19.

Mr. Manuel Rivera Iglesias, Consul-General for Peru at Hong Kong, resumed charge of the Peruvian Consulate-General on June 11.  
Dr. Dean Abbott Smith, B.A. (Camba.), L.M.S.S.A. (London), B. Chir. (Camba.), D.T.M. & H. (London), to be a Medical Officer, with effect from May 27.  
Mr. Ts'o Tsun-on, Hong Kong Police Reserve, to be an Honorary Aide-de-Camp to His Excellency the Governor, with effect from June 12.
